---

I am writing because I am concerned about the lack of competition in agricultural markets. I don't want big business to have control over my food. Monsanto controls the seeds and that has to come to a screeching halt. I don't want chemicals in my food. I want everything about that product on the label. Corporate lobbyists and former employees of these big corporations should not be able to work in our government. Also, food needs to be grown as to not endanger our environment.

Thank you for giving me the opportunity to comment.

Sincerely,

C. Martinez
