Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

Food is grown and raised in ways that are terrible for the environment, with methods that pollute the water, poison the soil, and threaten our long-term food security.

Just one company, Monsanto, controls the majority of seeds in the US, and regularly threatens farmers who don't buy its seeds. This is an outrage! And, consumers are beginning to realize how terribly dangerous the Monsanto mono-culture monopoly is for themselves and their loved ones.

Thank you for giving me the opportunity to comment.

Sincerely,

Anne Hemenway
