Subject: Farming

Dear Sir or Madame:

I am a young man. I work for the public library in Manhattan. I have become aware that the DOJ is looking into the state of the agricultural industry. I think this is great. I think produce will be better in general when it comes from small farms as the farmers are more connected with what they are farming. The big agricultural corporations use a lot of chemicals when they farm and they try to resist restrictions. With big corporations, the majority of the money goes to a small group of people.

Thank you,

Jeremy Lopez
