US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

Hello, I am an organic food consumer and enjoy going to my local farmers market for groceries. I am very concerned about large chemical companies controlling our food in the way they do now. I do not think it is right how Monsanto takes small farmers to court and ruins them.

I am asking you to please look closely at this issue and consider the health of the population. I believe that feeding the world can be done better.

Thank you from this very regular hard working person.

Sincerely,

Selena Kearney
