Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. Why is Monsanto allowed to control the majority of seeds in the US and why are they allowed to threaten farmers who don't use their seeds and more importantly why do the people not have this information given to them. I'm afraid to eat anything from a store or restaurant and I fear for my family.

Thank you for giving me the opportunity to comment.

Sincerely,

Elisha Page
