Subject: Corperations in the food market

Why is it that major shareholders, paid staff of these big companies are part of the USDA? Why is it that they can say what goes into food? Why cant food be just that food? Why cant I get beef with out BGH in it? Same with milk? All these chemicals that are in our food. Yet look at history....People have lived thousands of years w/o all these chemicals in thier food. Yet here we are survivors of those great people. Somehow our kids now have a higher % of cancer from what??????

Fix this please. Less Gov't in the food and more farmers in it.
