Subject: Submittal regarding Agricultural monopolies
Attach: Monsanto The Poster Child of Corporate Manipulation Corruption and Deceit.DOC

Dear Attorney General Holder and Secretary Vilsack,

The attached document provides background material on Monsanto, that offers a context for the analysis of their monopolistic position in agriculture. I believe you will find the evidence disconcerting, even shocking. It is nevertheless all documented.

I am at your service and more than willing to respond to any inquiries you might have about this evidence. I can also address details regarding the health risks from GMOs in general. Furthermore, I am happy to forward you a copy of my books, *Seeds of Deception* and *Genetic Roulette: The Documented Health Risks of Genetically Engineered Foods*.

I urge you to take steps to dismantle the dominance, control, and undue influence of Monsanto, and thereby protect the health and environment from a potential cataclysm.

Respectfully,
Jeffrey M. Smith
