I am writing because I am concerned about the lack of competition in agricultural markets.

Monsanto and affiliates would be a good place to start! If JUST for the fact that Monsanto contaminates a non GMO soy farmer down wind from their GMO farms AND THEN SUES THE NON GMO FARMER WITH A MULTI MILLION DOLLAR LAW FIRM should send up several red flags.

Their influential lobbyists that guarantee all U.S. international Ag aide include the "gifting" of gmo only seeds to poor farmers in poor countries is another immoral scam that renders sterile seeds so that they must purchase seeds every year and sign up to the big ag patent contracts is deplorable.

I ask you to please study the issues involved in this anti trust case DEEPLY! Consider the safe and sane alternatives that we have to struggle so earnestly for in this great country.

Don't let them hi-jack our food.

Thank you for giving me the opportunity to comment.

Sincerely,

jerry cibilic
