Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

The health of America depends on the quality - not quantity - of foods that we eat. We rely on lady justice to regulate the corporations that determine the content of our food and how that is communicated to consumers.

Please do your part in this process to ensure transparency of the industries that feed us.

Grocery shopping should not require multiple post-doctorate degrees simply to read a label.

Thank you for giving me the opportunity to comment.

Sincerely,

Jennifer Shephard
