Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. My family is one of farmers and the way in which they are treated by the big businesses (ex. Monsanto) is disgraceful. Bring back the choice and the livelihood of farmers who don't live under the thumb of big businesses!

Everyone has the right to know what they are putting into their bodies! Label GMOs, tell us exactly what is doing to our processed foods. WHAT IS IN OUR FOOD? We cannot be healthy without knowing what we put into our bodies.

Protect the environment, respect workers, animals and the planet which sustains us. We need to reconsider how commercialized our food processing has become - it's not longer about food but making profit.

Reinstate Kevin's Law and SAVE LIVES.

Thank you for giving me the opportunity to comment.

Sincerely,

Shane Stephens
