US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

The same way we protect animal species from extinction, we should protect plant species, especially the tens of thousands of food varieties, from companies like Monsanto that are consciously eliminating them.

I urge you to please include in your investigation a consideration of the importance keeping seeds, the foundation of human life, at least in the marketplace, if not in the public domain where they truly belong.

Sincerely,

grace delano
