Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. increased use of GMOs, unsafe factory farming methods pollute the earth and waters.

This is causing the loss of plant species, loss of business to farmers, unwanted chemicals in our foods, health issues, obesity, cancer and more.

GMO foods also threaten our well

I am also concerned that 2 Monsanto CEOs have been appointed to run the FDA! This is a conflict of interest!

Thank you for giving me the opportunity to comment.

Sincerely,
Lynda Allen
