Re: PUBLIC COMMENT **OPPOSING** MONSANTO, H.R. 875, THE
WORLD HEALTH ORGANIZATION UNITED NATIONS *CODEX*
ALIMENTARIUS MOVEMENT, MONSANTO'S PENDING APPEAL TO THE
U.S. SUPREME COURT, AND "THE PROJECT FOR A NEW AMERICAN
CENTURY."

To the Legal Policy Section, Antitrust Division, U.S. Department of
Justice:

My public comment on Monsanto is that I oppose them and everything
they stand for. Corporations had originally been designed to be
disbanded when they behaved against the public interest. See, e.g.:
Frankenstein Incorporated, © 1931, by I. Maurice Wormser, LL.D.,
Professor of Law, Fordham University, Editor, New York Law Journal,
published by McGraw-Hill Book Company, Inc.. This is one Corporation
which should be disemboweled, for the reasons described in
www.foodfirst.org, and articles posted on the internet such as
"Monsanto's dream bill, HR 875",
[www.opednews.com/articles/Monsanto's-dream-bill-HR-by-Linn-
Cohen-Cole-090309-337.html](http://www.opednews.com/articles/Monsanto's-dream-bill-HR-by-Linn-Cohen-Cole-090309-337.html) (March 9, 2009), by Linn Cohen-Cole, and
other articles on "Monsanto" from the www.opednews.com web site
search engine.

Your opposition to the policies of Monsanto corporation would be appreciated.

Very truly yours,

John Halka
