To: Read, John
Subject: Amazonian situation

Dear Mr. Read,

Rather than try to analyze why Amazon wants to destroy not only bookstores, but in effect many writers (including myself), I want to add my voice to the chorus: please curb Amazon from its greedy, egregious, and in effect price-fixing practice re e-books. Isn't a well-informed and widely-read public still a good idea in this country?

Sincerely,
Alison Owings
