Subject: E-book settlement

Dear Mr.Read,

Please reconsider the DOJ's proposed settlement that would allow Amazon to resume the predatory pricing that allows it to capture 90% of the e-book market while undermining its offline competition.

A healthy, competitive book market is vital to our culture. It's not in the public interest for the government to help Amazon use e-books to target traditional brick-and-mortar bookstores.

Thank you for your serious consideration.

Sincerely.
