Subject: Comment on U.S. vs. Apple, Inc., et al., 12-cv-2826

Dear Mr. Read,

A free society requires the broad proliferation of ideas and opinions. Printed ideas and opinions can only proliferate where there is a free, fair and widespread market for books (including e-books). If Amazon.com is allowed to continue its predatory pricing strategy -- which is designed to secure monopoly control over the publishing industry -- America will be a less free society.

How can this possibly be in the public good?

Sincerely,

William Mark Habeeb
Arlington, VA
