Subject: e-book settlement

Dear Mr. Read:

A healthy, competitive book market is vital to our culture. It's not in the public interest for the government to help Amazon use e-books to target traditional brick-and-mortar bookstores. I'm a children's book author. My life and livelihood are in getting books under the noses of children, and we need lots of ways to do that. Short-term low price may cost us all – authors and readers - dear in the long run.

Sincerely,
Gail Carson Levine
