Subject: Ebook settlement

Dear Mr. Read:

This is to express my grave concerns about the proposed e-book settlement. A healthy, competitive book market is vital to the United States sense of community, to local economies, and to our culture. It's not in the public interest for the government to help Amazon use e-books to target traditional brick-and-mortar bookstores.

I oppose the settlement as written as being anti-competitive, as well as being injurious to small businesses--many of them the cultural centers of their towns--across the United States.

Sincerely,
Nancy Scott Hanway
