Subject: Authors Guild Does Not Speak For Me

Dear Mr. Read,

I just want to say that the Authors Guild doesn't speak for all authors...and not not even all of its members.

I am a long-time Authors Guild member and am published by several Big 6 publishers and by several of Amazon's imprints.

I believe that it's detrimental to authors and readers, as well as to the establishment of a free and healthy marketplace, for publishers to collude with Apple to create artificially inflated prices for ebooks.

I am totally bewildered by the Authors Guild's stance on this issue and I support your efforts.
