Instead of the government continuing to allow monopolies to take over our economy, why not include the little guy, and let the public make up their own minds as to whom they wish to do business. "Variety is the spice of life." I don't think Amazon coined that phrase. I sure think it might be better for most of us to be allowed to make some in our lives. It seems as if many choices are being eroded.

Speaking of public interest, it seems to me blocking or at least modifying this bill would make for a more interesting public!
