**Subject:** Stop Helping Amazon Sink the Bricks and Mortar Book Market

Mr. Read

A healthy book market is vital to the economy and to the cultural health of our nation.  
Not to mention to the careers of all us U.S. writers.

Stop assisting Amazon -- bottom feeders of the book market and raptors of rapacity -- to sink  
our careers and those of the good people who sell our hard and soft cover books.

With this misguided suit, you are creating what none of us want: a monopoly.

Please stop.

Yours,

Joan SCHENKAR
