Subject: Agency model

I believe the agency model is good for small business or the independent book store. In our community, Petoskey,MI, it is the heart of our community. I ask you to support their effort to compete equally in this market. I do not believe Amazon should be allowed to set the price and undercut our local bookstores. I am sure Amazon is financially able to have more lobbyists than the small store owner. Please disregard this when making your decision. I urge you to support the agency model which enables our beloved local bookstores to stay competitive.

Book lover,

Julie Kennedy
