William H. Stallings, Chief,

Transportation, Energy, and Agriculture Section

Antitrust Division, US Department of Justice

450 Fifth St. NW, Suite 8000, Washington DC 20530

Re: Civil Action #12-cv 00395-RPM-MEH

Dear Chief Stallings,

Crime does pay if the settlement between Gunnison Energy Corporation and SG Interests goes forward. They colluded and then kept the leases. Have they done this before? Corporations are the ones with power while the man in Utah (Tim DeChristopher) simply disrupting BLM gas lease sales is doing two years in federal prison.

The people of Delta County are now facing yet another threat by the same energy corporations that run rough shod over your department. The sale of 30,000 acres of leases. The BLM is doing this without a current Resource management Plan (over 20 years old) which is terribly out of date as to water sources and land use. Is this the same old game??

Sincerely,

Barbara Phillips
