

In Regard to :The case is Civil Action No. No. 12-cv-00395-RPM-MEH

I: John Young 14034 Dry Gulch Rd. Paonia, CO. 81428

Wish to request that: Proposed SGI, GEC settlement should be set aside **and seek a harsher judgment.**

In keeping good face with the public who are now paying much more attention than in the past to issues that involve them and their properties I propose that the leases acquired by G.E.C. and SG Interests in the case mentioned above be forfeited and stiffer fines be charged and other leases held by these parties be investigated and that these two companies be barred from bidding on future leases for at least two years in respect to Tim DeChristopher who was sentenced two years in Federal Prison for doing the same thing that these two corporate interests did, **disrupting a BLM gas lease sale.**

He is a private party who was directly injured because of shenanigans by corporate interests and I think this should be investigated.

Remember that the public is now watching with a keen eye.

Thank You. John Young
