Subject: Proposed settlement and Publishers

Dear Mr. Read,

Please do not support the Department of Justice's settlement proposal that would, in effect, return control of e-book pricing to Amazon, a company that is poised to put brick and mortar bookstores out of business. In addition, Amazon is avoiding paying sales tax in many states. In other words, Amazon is damaging many who want to compete and avoiding working toward the public good.

Thank you for your time.

Sincerely,

Joni Metcalf-Kemp
