I am writing as a bookstore owner in Leland, Michigan employing two full time persons. Not that big. However, Amazon has continually done everything to force me out of business..selling newly published works at lower than my cost..now they want to sell e-books below cost. How big does a predator get before he just has it all..Mr. Besos stated intention.

Where did antitrust go..now we are encouraging a monopolist..

I need your help.

Sincerely,

Diana P. Sebaly
