Re: PUBLIC COMMENT **OPPOSING** MONSANTO, H.R. 875. THE
WORLD HEALTH ORGANIZATION UNITED NATIONS *CODEX*
ALIMENTARIUS MOVEMENT, MONSANTO'S PENDING APPEAL TO THE
U.S. SUPREME COURT, AND "THE PROJECT FOR A NEW AMERICAN
CENTURY."

To the Legal Policy Section, Antitrust Division, U.S. Department of
Justice:

As a public comment on Monsanto, I oppose Monsanto and everything
they stand for! Corporations had originally been designed to be
disbanded when they behaved against the public interest.
Frankenstein Incorporated, by I. Maurice Wormser, LL.D., Professor of
Law, Fordham University; Editor, *New York Law Journal*; © 1931,
published by McGraw-Hill Book Company, Inc. There is a cure for
corporate psyopathy. Disband the corporation. At least curtail their
powers. Monsanto is one such Corporation which deserves this fate!

other articles critical of "Monsanto" from the web site search engine of

Local Congressman Frank Pallone, Jr., Chairman, Subcommittee on
Health, House Energy and Commerce Committee, has apparently not
joined on as a co-sponsor to H.R. 875. His office staff members tell me
now that he is Chairman of the Subcommittee on Health, he usually waits

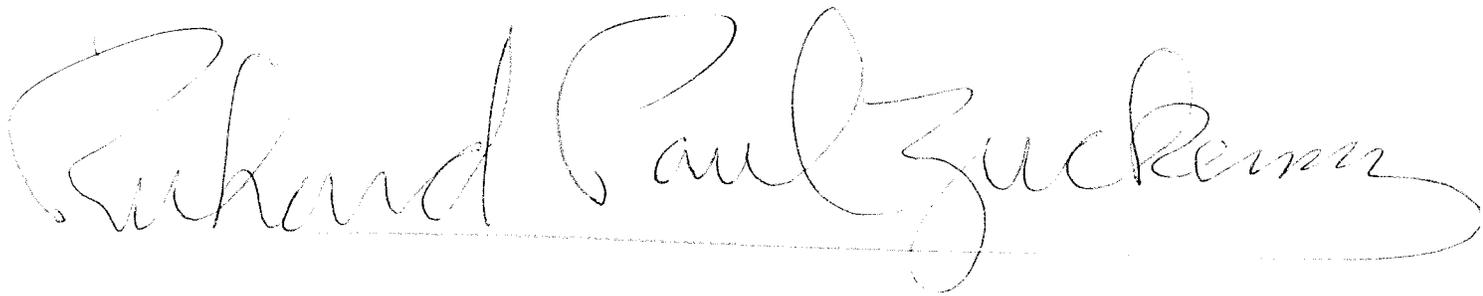

for the Bills to reach his desk. He might vote for it if or when it reaches his desk, though! About three years ago he told me in his New Brunswick, N.J., branch office that "I've changed my mind. I'm now in favor of medical Marijuana!" When I mentioned that the only federal statute providing for expungement of records is for young drug offenders and that the federal government does not seem to recognize rehabilitation of offenders, he exclaimed to his secretary "Write that down!!". But seems to have done nothing about these issues. The only thing he seems to be doing is pushing his expensive and lengthy health care legislation and quietly supporting illegal immigration! But I'm asking local Congressman Pallone, 237 Canon Office Building, Washington, D.C., 20515-3006, (Telephone no.)(202) 225-4671, (Fax no.)(202) 225-9665, to oppose H.R. 875 (February 4, 2009), even if U.S. Representative Rosa DeLauro (D -Conn.), (Telephone no.) (Her telephone no.) (202) 225-3661, (Fax no.) (202) 225-4890, does have 41 cosponsors to this Bill, helping her former-Monsanto-employee-husband.

We don't need biotechnology to solve our food problems. www.foodfirst.org. Organic farming and backyard farming should be encouraged, at least taught in the government school curriculum. www.thecartelmovie.com: www.johntaylorgatto.com. This would indeed include support for the Industrial Hemp Farming Act of 2009 (April 2, 2009) introduced by Congressman Ron Paul (R-Texas) (Telephone no.)(202) 225-2831 and the only 18 co-sponsors. www.votehemp.com. There should be encouragement campaigns for organic farming and backyard farming also because special interests are making a bundle on subsidizing commercial agribusiness.

We could be distilling alcohol at home for our automobile fuel. http://running_on_alcohol.tripod.com. The male *Cannabis* plant Hemp is also clean fuel for our automobiles. www.hempcar.org. I'd like to see alternatives to gasoline/oil because I personally believe the world's worst enemies are The Bush Family and Rockefeller Family. See, *e.g.*, TRADING WITH THE ENEMY: An expose of the Nazi-American Money-Plot, 1933-1949, by Charles Higham, © December 1982 by Doubleday, ISBN-10: 0385290802, ISBN-13: 978-0385290807; The Secret War Against The Jews, by John Loftus, retired U.S. Dept. of Justice Prosecutor

I am hoping this country does not go bankrupt before www.chicagoguncase.com comes to fruition. Monsanto is on the side of the Bush and Rockefeller families.

Now you see why I vote for Ron Paul, www.voteronpaul.com, www.ronpaul.com, www.ronpaul.org, and Ralph Nader, www.votenader.org, www.nader.org!!
