

It enables those manufacturers who voluntarily choose to do so, to be able once again to tell a dedicated retailer that he has a future for himself and his employees in putting his energy and money into the distribution of these products; that the retailer will be free to compete on a basis of merit with other sellers of other products; that he will be able to sell his goods, pay his employees, pay his city, State, and Federal taxes and continue in business as an honorable part of the distribution system that has made this a great country.

The alternative is bankruptcy and unemployment.

It is all to the credit of prominent members of both political parties that they have joined hands in advocating, promoting and even testifying before congressional committees as to the urgency and the need for such legislation.

Let us see how really friendly to business our Government people are. Your Representative in Congress will have a chance to vote on this business protecting measure. So will your Senators. And finally our good President with all his burdensome problems of a worldwide nature—will have a chance to vote "yes, I am friendly to business" by affixing his signature to this important business legislation.
