1/ The amount enacted for 2008 and the amount requested for 2009 will be offset by $4 million in both years with funding provided from the Immigration Examinations Fee Account at the Department of Homeland Security.
The Executive Office for Immigration and Review (EOIR) requests $10,000,000 for the implementation and maintenance of a Digital Audio Recording system (DAR) and the Immigration Review Information Exchange System (IRIES). $8.3 million is for the implementation of the DAR to be provided to immigration courts nationwide. This system will improve the audio quality over the current use of cassette tapes used in the immigration courts to record hearings and allow the immigration judges to operate the recording system through the use of a desk-top computer. $1.7 million is for IRIES through which EOIR will share mission-critical information with other federal agencies, including the Department of Homeland Security and the DOJ's Civil Division.
