first time, the Senate of the United States will number 100 Members. I am well acquainted with the various candidates in both parties who ran for office in Hawaii. Seven times I voted for the admission of Hawaii into the Union as a State, which is something of a record, I suspect.

I am naturally gratified, as a member of my party, that for the first time in 5 years the Republican Party has made a significant breakthrough in a by-election. I hope it indicates a trend. It is a most admirable beginning.

We look forward to the admission into the Senate of the distinguished new Democratic Senator from Hawaii, and the distinguished new Republican Senator from Hawaii. If our information is correct, I understand the final returns are not in. I extend my congratulations to them. I extend my congratulations to the new Lieutenant Governor, who is a native Hawaiian, of the native blood of the original settlers of Hawaii. My congratulations go to the attractive Governor of Hawaii, Governor Quinn, his beautiful wife, and their six children. He is an excellent Territorial Governor. I am delighted the governmental affairs of our new State are in the hands of a Republican Governor Quinn.

We Republicans do not have much chance to rejoice these days. Therefore I have taken this opportunity to say, knowing how these individuals, that irrespective of their parties they are fine Americans. I know we shall be immensely proud of our two new Senators. I know they will represent varying points of view of the widely divergent groups of Hawaiians who have now become a part of our Union.

Finally, I hope that when our new Senators from Hawaii arrive, their first project will not be—because I expect to support them in most things, but I would have to oppose them in this—to build a bridge from their State line to the next State adjoining them.

LIMITATION OF DEBATE ON SENATE BILL 710

Mr. JOHNSON of Texas. Mr. President, I ask that during the consideration of Order No. 446, S. 716, to authorize the Attorney General to compel the production of documentary evidence required in civil investigations for the enforcement of the antitrust laws, and for other purposes, we have the usual unanimous-consent agreement for limitation of time, 30 minutes on amendments and an hour on the bill, to be equally divided between the majority and minority leaders.

Mr. GRUENING. Mr. President, I ask that the question be put.

THE PRESIDING OFFICER. Is there objection. The Chair hears none, and it is so ordered.

AREA REDEVELOPMENT LEGISLATION

Mr. RANDORPH. Mr. President, a few days ago in a regular press conference of the President of the United States, Mrs. Mary Chilton Abbott, representing the Charleston, W. Va., Gazette, an important daily newspaper in our State, propounded a very pertinent question to the Chief Executive.

"Mr. President, some time ago, the Senate of the United States passed a bill that the inquiry had to do with the necessity for prompt action on area redevelopment in West Virginia. You were in favor of the bill, and I should like to have you to tell me why you have not done anything to put the bill into effect."

The attention of the Chief Executive was called to the salutation and mechanism within the mines in distressed areas which have continued to be deep pockets of unemployment, bringing about a lessened state and local economy for the people in that State.

It is important to note what the President of the United States indicated with reference to legislation in this field. His own words were:

"I think that they [depressed area bills] have been up every year for, oh, 3 or 4 years."

I remind the Senate that the President of the United States, on September 6, 1958, vetoed an area redevelopment measure.

It seems unnecessary that further studies in this field should be carried forward. The House of Representatives should concur in the affirmative action by the Senate and refuse the present paper blank. I see the vital legislation on this subject needed in many sections of the country. Its passage, and the program thereby placed in effect, would mean much to the State of West Virginia.

Mr. President. I ask that the question and answer be printed in the Record.

There being no objection, the question and answer were ordered to be printed in the RECORD, as follows:

Question: "Sir, increasingly there are men being replaced by machines, particularly in the coal mines. Small communities that have a large percentage of these displaced workers are becoming areas of blight. I wonder if you have discussed with your economic advisors the possibility of a program to do something about these technologically unemployed?"

The President answers: "Oh, as a matter of fact we call it the depressed area bill. I think that they have been up every year for, oh, 3 or 4 years."

"Yes: as a matter of fact one of the men that is very expert in this field is the man I just nominated, as Secretary of Commerce, Mr. Mueller, and he has made long studies or what can be done between the Federal Government in cooperation with the States, and I think his studies are very valuable."

THE SENATE IS 100 STRONG

Mr. CASE of South Dakota. Mr. President, this distinguished body will soon be graced by two more Senators from our newest State, Hawaii. This will bring the membership of the Senate to an even 100.

In honor of the election of our newest Members, one from each party, to bring the membership to this magic number, one of my staff members composed the following lyrics for what he calls "A Song":

Clap your hands and ring the gong - Because it won't be very long - Before the Senate is 100 strong. - Three cheers for Hawaii's Foes and Long. HONOR TO SENATOR HOLLAND BY ALPHA TAU OMEGA

WASHINGTON.—Alpha Tau Omega fraternity yesterday honored Senator SPESSARD L. HOLLAND (Democrat, Florida) for his half-century of membership in and service to the collegiate social organization.

Holland was presented with a 50-year certificate in special ceremonies at a luncheon in the Speaker's dining room of the Capitol. Erle Cooke, Sr., a member of the Federal Reserve Board, made the presentation on behalf of the fraternity's national headquarters.

Holland was initiated into ATO during undergraduate days at Emory University, Atlanta, and later attended the University of Florida chapter while attending law school there.

THE FLAG IN THE SENATE CHAMBER

Mr. GRUENING. Mr. President, I wish to add a brief postscript to my protest yesterday against leaving the 49-star flag as the flag in the Senate Chamber. I have now been assured by our excellent Sergeant at Arms, Mr. Joseph C. Duke, that within a very short time the 48-star flag will be replaced by an up-to-date 49-star flag, recognizing thereby the admission of Alaska into the United States.

Mr. President, I ask unanimous consent that a typographical error in my remarks of yesterday be corrected in the permanent Record, so that the word "sympathetic" be changed to "emphatic."

The Exchanges have me saying "I hereby replace my sympathetic." My protest, obviously, was "emphatic," not "sympathetic," and I ask unanimous consent that this correction be made in the permanent Record.
