

UNITED STATES DEPARTMENT *of* JUSTICE

---

FY 2010 Coordinated Tribal  
Assistance Solicitation Review

# Tribal Justice and Safety

*“ This is a direct result of what we heard from tribal leaders at the department’s listening session. Tribal leaders have made it clear that a single application would significantly improve their ability to apply and receive critical federal funding, which so many of their communities depend on. This comprehensive approach is another step in our efforts to work more effectively with tribal communities to improve public safety in those communities.”*
