Internet, Mobile Phones, and Texting Safety Tips for Parents

- **Do** teach your child not to post identifying information on the Internet.
- **Do** set a limit for how much time your child can spend online.
- **Do** keep the computer in a public room in the house. Do not have an Internet-connected computer in your child’s bedroom.
- **Do** utilize parental controls provided by your Internet Service Provider and/or blocking software. (Contact your Internet ISP if you have questions).
- **Do** talk to your children about purchasing “in app” products.
- **Do** talk to your child about using any location services on their device.
- **Do** periodically review your child’s computer, emails and messages. You should have all of your children’s passwords.
- **Do** spend time with your child online. Have them show you their favorite online destinations. Get to know your child’s online friends as you would their real-life friends. Learn to navigate the web.
- **Do** know who they text and email. Most providers have online ways to identify frequent contacts so you can see if someone new appears as a contact.
- **Do** monitor your child’s access to the Internet and texting.
- **Do** talk to your child about the danger of Internet predators.
- **Do** watch for unexplained changes in your child’s behavior.
- **Do NOT** hesitate to seek help from law enforcement if you think a predator may be targeting your child.
