These guidelines should be used any time an Indian child in Indian country appears to be the victim of physical or sexual abuse or if the suspected perpetrator appears to be Indian, regardless of the race of the child victim.

“Indian country” under 18 U.S.C. § 1151 includes tribal trust lands/reservations, dependent Indian communities, and Indian allotments held in trust status.

MEMORANDUM OF UNDERSTANDING

In the fall of 1994 these guidelines were established under a Memorandum of Understanding (MOU). If a person, while engaged in a professional capacity or activity (medical, mental health, social worker, teacher, child care worker, law enforcement, prosecutor, foster parent, commercial film processor), learns of facts that give reason to suspect that a child has been abused and fails to make a timely report, that person shall be guilty of a criminal offense. 18 U.S.C. § 2258.

36-HOUR REPORT

Within 36 hours of the initial report, the local law enforcement agency or child protection services agency which received the initial report shall follow the telephone report with a written report to the agencies notified under the Initial Report section. The 36-hour report should contain the following: (See example on page 11)

- ▶ The name, address, age and sex of the child that is the subject of the report, including current whereabouts;
- ▶ The grade and the school in which the child is currently enrolled;
- ▶ The name and address of the child's parents or other person responsible for the child's care and the current whereabouts of the parents or other person responsible for care;
- ▶ The name and address of the alleged offender and whereabouts;
- ▶ The name and address of the person who made the report to the agency, unless prohibited by statute or DHS policy to disclose name and address of reporting party in writing;
- ▶ A brief narrative as to the nature and extent of the child's injuries, including any previously known or suspected abuse of the child or the child's siblings, and the suspected date of the abuse;
- ▶ Any other information the agency or the person who made the report to the agency believes to be important to the investigation and disposition of the alleged abuse, i.e. emergency room reports, previous court cases, etc.; and
- ▶ Agency case number.

INDIAN COUNTRY JURISDICTION

Upon receipt of the initial report, if possible, or upon receipt of the 36-hour report, BIA or Tribal Law Enforcement will take immediate action to determine if it is probable that the alleged offense occurred in Indian country. For the purpose of further investigation it shall be presumed, unless otherwise established, that if the child or the perpetrator resides in Indian country, the probability exists that the offense occurred in Indian country.

COORDINATION OF LAW ENFORCEMENT

When it is determined by BIA or Tribal Law Enforcement that the probability exists that the offense occurred in Indian country, BIA or Tribal Law Enforcement shall notify the local FBI Resident Agency. The law enforcement agencies will make a determination as to which agency will conduct the investigation or if they will conduct a joint investigation together with each other or any other federal, tribal, state or local law enforcement agency.

EMERGENCY REMOVAL OF A CHILD

If immediate removal is necessary, the responsible law enforcement agency, state or Indian child welfare agency, and/or child protection agency will follow the appropriate procedures for emergency removal of the child, including immediate notification of: (1) the child protection agency where the child resides; and (2) the tribal prosecutor in compliance with applicable tribal codes or 25 C.F.R., Part 11 (for tribes served by the Courts of Indian Offenses) concerning show cause and other proceedings.

MEDICAL EXAMINATION

An immediate medical examination by a physician or health care provider will be arranged if there is an acute need, such as injury to the child, which requires medical attention, or the need to preserve evidence, such as the preparation of a rape kit or other examination, or existing conditions make it advisable. Otherwise, a medical examination by a physician or health care provider with a background in child physical or sexual abuse previously identified by the United States Attorney's office will be arranged in the normal course of business.

FORENSIC INTERVIEWS

To minimize the trauma to minor victims, forensic interviews of minor victims of child sexual or physical abuse shall be conducted by a professional who has been trained to interview children and should be carried out in a child friendly atmosphere, such as a child advocacy center when available.

TRIBAL OR FEDERAL PROSECUTION

The United States Attorney's Office will determine if the matter will be prosecuted in federal court. If a matter is declined for federal prosecution, BIA law enforcement, tribal law enforcement, the tribal prosecutor, and the District Attorney's office (if applicable) will be notified in writing.

LIAISON WITH VICTIM

After presentation to the United States Attorney's Office, the investigating officer or victim/witness coordinator will act as liaison with the victim and the family, the service providing agencies, and others as necessary.

CRIMINAL JUSTICE PROCESS

The investigating agent, Assistant United States Attorney, or victim/witness coordinator, with the assistance of the other service providers, shall assist in familiarizing the victim with the criminal justice process, the courtroom, travel and lodging arrangements during court appearances, counseling, victim impact statements, the Bureau of Prisons Victim/Witness notification program, and other needs as they are determined.
