**REQUEST TO CEASE SERVICE OF DOCUMENTS BY MAIL TO THE OUST**

The Oakland, San Francisco and San Jose Divisions of the Office of the United States Trustee (“OUST”) are Registered Participants in the Court’s electronic filing system and have consented to electronic service. In addition, the OUST receives electronic notice of all matters filed electronically with the Court even in those matters where the OUST has not yet entered an appearance. To save paper and postage as well as the time and effort of mailing papers to the OUST and of processing such mail upon receipt, the OUST requests that it no longer be served with paper copies unless the sender is notified to the contrary by the OUST or unless BLR 9014-1 is applicable.

Specifically, Rule 10 of the Court’s May 1, 2008 Electronic Case Filing Procedures provides in pertinent part:

10. Notice of Electronic Filing and Service: Whenever a pleading, document or court order is filed electronically in accordance with [the Court’s] ECF Procedures, the system will automatically generate the Notification of Electronic Filing, which will be emailed to all Registered Participants who have consented to electronic service and have appeared in the case or adversary proceeding in which the document is filed. **The transmission of the Notification of Electronic Filing to a Registered Participant shall constitute effective service in accordance with BLR 9013-3(c) and 9022-1(b).** (Emphasis added).

Please contact your Assistant United States Trustee should you have questions.
