Please share with us what topics you would you like to see at future sessions and/or provide additional comments about the training:

- ♦ Enjoyed session; was treated very well by participants.
- ♦ Would like more of the Power Points. I think too many presenters were put on the panels and workshops. Need to plan for more time for questions and networking/brainstorming answers to questions. The grant writing workshops are key. Would like to see more time dedicated to these areas. Great presenters: Beverly Watts-Davis is a fantastic presenter! The Suicide QPR workshop was not appropriate to put in the grant writing workshop. People were not prepared to discuss a difficult topic - this was not expected. The three workshops on grantwriting, NACE, QPR, etc., all should have been separate workshops. All promise fantastic information, but separating them out would be better. Providing copies of state contacts for the funding, for example, who is the state contact for OJJDP formula Title II funding? Thank you for having this conference. The connecting up locally with the state and federal contacts is so important.
- ♦ Could use more handouts while they were giving the presentation. How often do these sessions take place? I hope we get the materials e-mailed to us.
- ♦ Give a break to send and receive calls in afternoon especially when we sit through lunch presentation.
- ♦ On next session provide child care. Also do breaks, especially when presentations go though lunch hour.

Comments

Additional comments about the workshop:

- ♦ Wished I could have spent more time in his workshop!
- ♦ Excellent presentation on grant writing!
- ♦ The title of this session is very misleading. Should be SAMHSA grants & services. Thought session would be general session about grant writing.

Interdepartmental Tribal Justice, Safety, and Wellness - Session #10

**Anchorage, Alaska
December 2-3, 2009**

Workshop Evaluations Summary

- ♦ Would like a longer all day workshop dedicated to suicide prevention that gives time for discussion.
- ♦ Very helpful with input from the audience.
- ♦ Not enough time! Excellent resources!
- ♦ You gave me a huge understanding of how grants operate.
- ♦ Beverly was awesome.
- ♦ Stan talks like the Dry-eye guy
- ♦ The presentation for the grant writing felt extremely rushed. I think the afternoon session should have the grant writing first instead of last. Move the other two presentations go after the grant writing training. Every information on grant writing is extremely important.
- ♦ Grants section was very valuable - but I thought the suicide section was inappropriate - not on agenda and therefore unexpected. Ben Camp was a good presenter; the topic was wrong. Beverly Watts-Davis is terrific.
- ♦ I did not hear all the speakers. The ones I did hear had an excellent presentation and the materials will help me to work better with my village in addressing problems we may be experiencing.
- ♦ Thank you for fitting the suicide into the full agenda. Note, I rated this score because of the amount of time they had to present. Maybe have separate workshops. Or maybe have the short presentation switch to the end of the workshop.
- ♦ Good review. Need to explain acronyms. Workshop very rushed. Need more time or cut back on materials.
- ♦ Thank you for being here and sharing such personal stories. Sensitive and appropriate dialogue. We are all connected.

Workshop Evaluations Summary

- ♦ Thank you very much for providing training on this most important topic. Finding out about improvement tips certainly helps. Ms. Watts Davis makes the material and the process so accessible and appealing. I want to get away from my paperweight that states, "the ultimate inspiration is the deadline." I would love to get a different inspiration!! Devron Hellings, Native Village of Napaimute.
- ♦ Too limited time with Gary and Ben.
- ♦ The presenters were all good. The only reason I scored 4s was because they were rushed.

Comments

Additional comments about the workshop:

- No materials provided. Speaker seems really bored. Actually, probably really tired due to time change!
Great information, good overview and helpful answering questions. Thank you!
- Would have been better if handouts of presentation available to attendees.
- She sounded very bored with the presentation, but was very knowledgeable.
