

Corrected Data in the Indian Country  
Investigations and Prosecutions Reports for  
2011-12, 2013, and 2014

**Corrected Data Regarding “Defendants Filed in District Court” and “Matters Resolved” in  
the Indian Country Investigations and Prosecutions Reports for  
Calendar Years 2011-2012, 2013, and 2014**

The Indian Country Investigations and Prosecutions (“ICIP”) Reports submitted to Congress for calendar years (CY) 2011-2012, 2013, and 2014 contain errors in two data sets. The statistics provided in Figure 1 (“Defendants Filed in District Court”) and Table 13<sup>1</sup> (“Matters Resolved”) of those reports are incorrect due to computation errors.

The first error is contained in both sets of statistics. The ICIP Report summarizes Indian country caseload data for United States Attorney’s Offices (USAOs). The Executive Office for United States Attorney’s collects Indian country case statistics through the Legal Information Office Network System (LIONS) database. The two LIONS codes that apply to Indian country cases are program category codes 092 (Violent Crime in Indian country) and 065 (Non-Violent Crime in Indian country). A single matter may have multiple program category codes and, although rare, there are instances where USAOs code Indian country matters using both the non-violent and violent crime program codes. The ICIP Reports for the referenced years did not account for instances where a single Indian country matter was coded using both the non-violent and violent crime codes, resulting in double counting. The double counting error affected Figure 1 and Table 13 in the ICIP Reports for years 2011 through 2014.

The second error applies only to Figure 1. In prior ICIP Reports, Figure 1 contained fiscal year statistics for the number of Indian country defendants filed in district court. This is inconsistent with other graphs and tables provided in the reports, which were prepared using calendar year statistics. Figure 1 of the 2015 ICIP Report corrects this error and presents calendar year statistics for years 2010 through 2015.

The final errors apply only to Table 13. In prior ICIP Reports, some USAOs that resolved Indian country matters were omitted from the table. Additionally, in the 2014 ICIP Report, Table 13 was mistakenly titled, “Matters Resolved Other Than by Federal Declination.” The statistics that appeared in the table covered all matters resolved, including declinations.

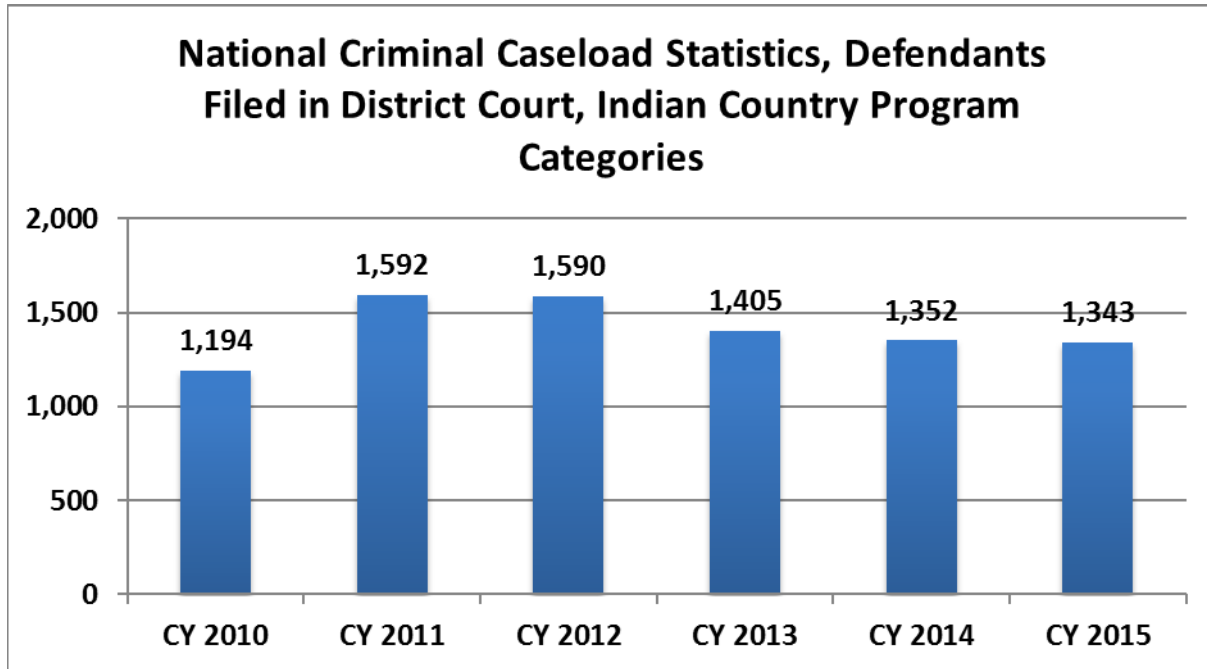

The errors described above impacted approximately one percent of the total number of Indian country cases analyzed for the ICIP reports. The errors have been corrected and will not affect subsequent ICIP reports.

Below are corrected versions of Figure 1 and Table 13 for the Indian country caseload data collected after the passage of the Tribal Law and Order Act in 2010.

---

<sup>1</sup> The “Matters Resolved” data in Table 13 is contained in Table 20 of the 2011-2012 ICIP Report.

**Figure 1: Defendants Filed in All Indian Country, CY 2010-CY 2015**

**Table 13: Total Indian Country Matters Resolved by USAOs, CY 2011-2014**

Declinations alone do not provide an accurate accounting of the United States Attorney’s Offices’ commitment to Indian country criminal cases. To provide context to the declination numbers, Table 13 lists, for each federal judicial district, the “total Indian country matters resolved” for calendar years 2011 through 2014 — that is, the total number of Indian country suspects in immediate declinations, suspects in matters terminated (which includes all later declinations), and defendants filed in District Court.
