

KEY INDICATOR TREND REPORT (KIT)

Medicare Utilization

Polaris Group is recognized as an industry leader due in part to our continuous efforts to develop and refine our products and services. We are excited to present to you our redesigned **Key Indicator Trend (KIT)** report. This report will serve as a source of identifying trends in your facility such as Length of Stay (LOS), ADL's, RUG Utilization, Case Management, and Return to Hospital.

Our progressive new KIT report will provide you a tool for in-depth analysis, tracking, and trending of data that will assist with monitoring your community's Medicare utilization. One of the key features is our redesigned **Community Opportunity Report**. This will help you quickly identify variables that can assist you in making a positive impact to your community's Medicare Program.

Enhancements

- Community Opportunity Report
- Detailed Case Management Report
- Monthly OMRA Report (EOT, EOT-R, COT, SOT, SS)
- Return to hospital statistics within 30 days
- Colored graphs

You now have a powerful tool to provide you with an overview of data which will assist in improved outcomes both financially and clinically.

Call Polaris Group Today!

Improve Profitability Now!

Community Opportunity Legend
Avg LOS = Average length of stay for Part A discharged residents
Avg RUG = Percent of RUG days in the RU and RV categories
Avg ADL = Percent of 'A' ADL scores
Return to Hospital = Percent of residents discharged to the hospital regardless of length of stay
Change of Therapy = Percent of COT OMRAs completed

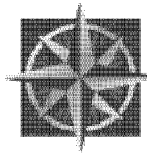

● The circle represents an opportunity for improvement compared to the Polaris Group average
