Subject: New England Compounding Center

Hello Troy,

Thanks for taking time to speak with me today . To recap briefly, we are the largest compounding center in the country and we specialize in pain management injectables and eye surgery injectables. We are able to provide testing data on all of our products to insure patient safety which is our main goal along with saving you money and making your life easier on a day to day basis. As we discussed, we price according to volume and no facility is too small or too large for us to accommodate. I hope we to speak to you soon and look forward to the opportunity to do business with you in the near future.

Regards,

Mario
