The last two years
Omar talked to me about
doing Jihad. He said if
he did Jihad everybody
would know who he is.
Omar chanted Arabic
Jihad words and listen
to Isis recruitment
training music when he
~~(exercise)~~ looked out. I knew Omar
was preparing for Jihad when
he bought the rifle, was
going to the range to
shoot, was spending a lot
of money and bought the
ammunition. I saw these
things as a green light
for Omar to ~~do~~ do
~~an~~ an act of violence.
I suspected it was going
to be something having
to do with a club, but
I did not know for
sure. I suspected it was
a club because of the
things he said to me.

I knew on Saturday, when OMAR left the house at about 5 pm that this was the time that he was going to do something bad. I knew this because of the way he left and took the gun and backpack with ammunition to see Nemo. I knew later, when I could not get a hold of him that my fears had come true and he did what ~~said~~ he ~~said~~ said he was going to do. I was in dental and I could not believe that the father of my child was going to hurt other people. When I got a text message from OMAR at 4 AM I knew that he did what he said he was going to do.

I gave the statement freely and willingly. Agent Enriquez did not make any threats or promises to me in order for me to give this statement.

I'm sorry for not furthering in the intent about what ~~me~~ was planning. I ~~do~~ didn't want to believe it, he's my son's father, I didn't want my knowns to hate me or get in trouble. He ~~was~~ was the provider and relied on him for everything. I wish I could have done the right thing but my fear and reality was holding me back.
