When I went to Orlando with Omar last week we drove around the Pulse Night Club after we ate at the Arabic Restaurant. We drove around the Pulse Night Club for about 20 minutes with the windows of the car down. Omar was driving slowly, looking around and at one point stated "how ~~big~~ upset are people going to be when it gets attacked."

I knew he was talking about himself. doing the attack on the Pulse. N.S.

On Friday, June 10, 2016, late night, Omar was looking at a website for the Pulse Night Club and when I saw what he was looking at, he said "this is my target." I knew that the time to attack the club was close.
