***This class is for sworn law enforcement, evidence technicians,  
and medical first responders only.***

## Course Summary:

This course is designed to meet the immediate training needs of any law enforcement officer, evidence technician, or other first responder personnel who respond to or investigate drug overdose deaths. It is intended as a basic safety familiarization related to opioids/opiates enforcement encounters.

## Certification:

Certificates of participation will be presented to those that attend the entire course.

## Description:

Topics covered during this eight-hour period of instruction will include:

- ◆ Trafficking trends and drug identification related to opioids/opiates; fentanyl and carfentanyl
- ◆ Prescription Drug Investigations and the Role of the DEA Tactical Diversion Squad
- ◆ DEA Clandestine Laboratory Team Response to opioids/opiates enforcement operations
- ◆ Dark Web/Bitcoin Investigations
- ◆ Agent/Officer Safety related to opioid/opiate handling
- ◆ Hazards during Enforcement Operations and other encounters

**This class is for sworn law enforcement officers, evidence technicians, and medical first responders.**
