Treatment Task Force

Mission Statement: The Maine Opiate Collaborative recognizes that a broad, multi-dimensional approach is necessary to address the public health crisis caused by opiate abuse. Education, prevention, treatment, recovery and law enforcement must all be significant parts of any solution. This Collaborative brings together people from each of these fields with the goals of identifying and addressing the causes of opiate abuse and proposing solutions. Collaborative members will meet regularly over the coming months and suggest comprehensive proposals to address the opiate crisis. The Collaborative will investigate efforts in other states to determine whether similar approaches would work in Maine. In addition the Collaborative will solicit input in a series of public forums during which members of the public may share their experiences and ideas. The Maine Anti Heroin/Opiate Initiative Executive Panel

9:00 – 9:10 Welcome & Introduction to our new Co-Chair Eric Haram.

- A reminder of our rules of engagement
- Volunteer note taker
- Overview of our Agenda and does anyone want to make any additions
- Overview of last meetings meeting and voting on the minutes.
-

The discussion today will most likely take more than one meeting for us to explore and make decisions around our recommendations about MAT for our report. Please keep this in mind as we have this session and open discussion.

9:10 – 10:30 A Presentation and Discussion on Medication Assisted Therapy (MAT) in Primary Care lead by Lisa Letourneau along with Meredith Norris, Noah Nesen & David Moltz

- Discussion and Action Planning (it is most likely that this discussion and action plan will be carried over to another meeting, so we will

10:30 – 11:00 Discussion on the following:

- Status of Focus Groups
- It has been requested we have a joint meeting with Law enforcement Task Force, discuss dates.
- Schedule next meeting agenda and set two more meeting times.

Thank you all for your willingness to keep on time and task, Pat
