ATTACHMENT B

I, Special Agent Bradley J. Benwell, a Special Agent with the Department of Homeland Security (“DHS”), Immigration & Customs Enforcement, Newark Cyber Crimes Group, have knowledge of the following facts based upon both my investigation and discussions with other law enforcement personnel and others. Because this affidavit is being submitted for the sole purpose of establishing probable cause to support the issuance of a complaint, I have not included each and every fact known to the government concerning this matter. Where statements of others are set forth herein, these statements are related in substance and in part. Where I assert that an event took place on a particular date, I am asserting that it took place on or about the date alleged.

Background

1. At all times relevant to this Complaint, defendant DONALD HARING (“HARING”) resided at 532 Second Avenue, Long Branch, New Jersey 07740 (the “Residence”).

The Online Forum

2. In or around July 2014, undercover DHS agents (the “UCs”) established an online forum to identify individuals who attempt to distribute, receive, or possess child pornography (the “Online Forum”). The Online Forum was maintained in a controlled environment in a manner that appeared to the prospective user that it was an exclusive and secure members-only website.

3. The “terms of admission” for the Online Forum required prospective members to, among other things, upload images of child pornography after selecting a user name and password.

4. In or around October 2014, a UC sent an email to a user on the known online child pornography forum PEDO HEAVEN BBS. The user had accessed PEDO HEAVEN BBS using an Internet Protocol address that was subscribed to by HARING and was used by HARING at the Residence (the “HARING IP Address”). The email from the UC invited the user to apply for membership to the Online Forum.

5. The user of the HARING IP Address selected the username “PEACHPICKER” and the password “8tasty1” for the Online Forum.

6. On or about October 19, 2014, the user of the HARING IP Address accessed the Online Forum and uploaded approximately 8 images of child pornography to satisfy the criteria for admission to the Online Forum. Three of the files uploaded by the user of the HARING IP Address are described below:

Her right knee is pointed up, and her left knee is touching the ground pointing to the side exposing her genital area.

The P2P Network Downloads

7. On or about June 18, 19, and 20, 2014, a UC accessed a publicly available peer-to-peer ("P2P") network over the Internet and observed an individual, later determined to be HARING, who was using the name "T_Young@ARES.com" and accessing the P2P network via the HARING IP Address. According to the P2P network, HARING was sharing approximately 133 files.

8. The UC examined HARING's shared folders and observed files depicting images of child pornography. Between on or about June 18, 2014 at approximately 10:23 a.m. and on or about June 20, 2014 at approximately 8:06 a.m., the UC downloaded from HARING's folders approximately 3 files, each of which depicted child pornography. The three files downloaded by the UC from HARING are described below:

Media Seized During Search of the Residence

9. On or about December 12, 2014, law enforcement executed a search warrant at the Residence. Pursuant to the search warrant, law enforcement seized multiple computers and electronic storage media belonging to HARING (the "Media"). The Media contained approximately 4,691 still images and approximately 75 videos of child pornography, including images of prepubescent children and infants being sexually abused.

10. Two of the approximately 4,691 still images and 1 of the approximately 75 videos located on the Media belonging to HARING are described in detail below:

Interstate Commerce

11. Based upon my education, training and experience, and my discussions with other law enforcement officers, the images described in paragraphs 5, 7, and 9 above traveled in interstate commerce and were produced using materials that were mailed and shipped and transported in and affecting interstate and foreign commerce by any means, including by computer, that is, the images were downloaded from the Internet, based upon, among other things, their presence on HARING's Media and law enforcement's knowledge that HARING had uploaded these images to a website and shared these images on an internet-based P2P network.
