Team -

We have a "green light" to begin trying to secure D target endorsements for the campaign. Again, your participation is voluntary and should be done at appropriate times (morning, evenings & weekends).

I have attached a recap sheet that I would like filled out for each conversation you have with your targets - it is important that we have backup as we move through the process. The campaign is currently working up an official endorsement form for our use - We should get the targets to "sign on dotted line" if possible. We will then continue to work with them through the process (roll-out, public event, press release, etc...)

The list of approved targets is below (slightly changed from your original submissions). These calls can begin ASAP at appropriate times. It is critical that you keep me in the loop as to how these calls go.

Please let me know if you have any questions.
