

**PRE-LITIGATION SETTLEMENT AGREEMENT
BETWEEN THE UNITED STATES OF AMERICA
AND THE HUDSON COUNTY, NEW JERSEY BOARD OF ELECTIONS
USAO No. 20200V00122**

This pre-litigation settlement agreement (the “Agreement”) is entered into voluntarily between the United States of America and the Hudson County, New Jersey Board of Elections (collectively, the “Parties”).

INTRODUCTION

1. The United States conducted an investigation of the Hudson County Board of Elections (“the Board”) under Title II of the Americans with Disabilities Act of 1990, as amended (“Title II” and “ADA”), 42 U.S.C. §§ 12131-12134, and Title II’s implementing regulation, 28 C.F.R. Part 35.

2. The Board has approximately 245 polling place locations, serving 12 municipalities, including buildings that are privately- or publicly-owned. The Board is responsible for selecting each polling place and ensuring the accessibility of each polling place.

3. During the June 7, 2022 primary election, the United States surveyed 16 of the Board’s polling places used during the election. The United States observed that all of the 16 polling places surveyed contained noncompliant elements that rendered the facilities inaccessible to voters with disabilities, including but not limited to, excessively sloped ramps, insufficient door maneuvering clearance, inadequate accessible parking, and lack of appropriate signage. The specific items of noncompliance noted in the June 2022 survey are attached hereto as part of Attachment A.

4. The United States alleges that it substantiated complaints stating that the Board’s polling places contain architectural barriers that render the facilities inaccessible to voters with disabilities at some locations.

5. Individuals with mobility impairments have disabilities within the meaning of the ADA where those impairments substantially limit one or more major life activities of such individuals, including walking. Individuals with vision impairments have disabilities within the meaning of the ADA where those impairments substantially limit one or more major life activities of such individuals, including seeing. 42 U.S.C. § 12102(2).

6. The Board is a public entity within the meaning of the ADA, 42 U.S.C. § 12131(1), and 28 C.F.R. § 35.104, and is therefore subject to Title II and its implementing regulation.

7. The term “the Board,” as used in this Agreement, shall include the Board and all of its members, officers, employees, contractors, successors, assigns, and administrative personnel; and any other person under the authority or control of the Board.

8. The Board operates services, programs, and activities within the meaning of Title II, including operating a voting program for federal, state, and local elections for which it

selects and uses sites as polling places.

9. The Attorney General of the United States is responsible for administering and enforcing Title II of the ADA, 42 U.S.C. §§ 12131-12134, and its implementing regulation, 28 C.F.R. Part 35. The Department is authorized, under 28 C.F.R. Part 35, Subpart F, to investigate the allegations in this matter, to issue findings, and to negotiate and secure voluntary compliance agreements. Furthermore, the Attorney General of the United States is authorized, under 42 U.S.C. § 12133, to bring a civil action to enforce Title II of the ADA.

10. The Parties agree that it is in their mutual interest, and the United States believes that it is in the public interest, to resolve this investigation on mutually agreeable terms without litigation. In consideration of the mutual promises contained in this Agreement, good and valuable consideration, the receipt and sufficiency of which is acknowledged, and to avoid the costs, expenses, and uncertainty of protracted litigation, the Parties, intending to be legally bound, enter into this Agreement.

TERMS OF SETTLEMENT

I. Definitions

11. “Election” shall include the periods of mail-in ballot voting, early voting, and in-person voting at polling places on Election Day, and all other days on which voting occurs, in all elections operated by the Board, including primary, special, and general elections.

12. “Election Day” for each respective polling place will refer to the times during which in-person voting occurs at that polling place.

13. “Accessible on Election Day” means that a polling place is compliant with the 2010 ADA Standards for Accessible Design (“2010 Standards”) (28 C.F.R. § 35.104, as set forth in appendices B and D to 36 C.F.R. Part 1191 and the requirements contained in 28 C.F.R. § 35.151) for the polling places based upon the individual site on Election Day, whether such compliance is achieved through ADA-compliant permanent modifications or through the use of temporary measures such as those provided for in Paragraph 23 below.

14. “Election Day Surveyors” or “EDSs” are Board personnel who will review compliance at polling place locations where temporary measures are to be implemented on Election Day.

15. “Effective Date” of this Agreement is the date of the last signature below. Unless otherwise specified, all time periods run from the Effective Date.

16. The term “polling place” as used in this agreement includes a facility at which voting is conducted or a ballot drop box location.

II. Obligations of the Board

A. Accessible Voting Program

17. The Board will take all reasonable and necessary steps to effectuate its obligation to comply with the ADA with respect to its voting program and this Agreement. In particular, the Board shall ensure all relevant policies, practices, and procedures meet the following obligations:

- a. The Board shall not exclude qualified individuals with disabilities from participation in or deny them the benefits of its voting program, or subject them to discrimination, on the basis of disability. 42 U.S.C. § 12132; 28 C.F.R. §§ 35.130(a), 35.149.
 - b. The Board shall maintain in operable working condition those features of facilities and equipment that are required by the ADA to be readily accessible to and usable by persons with disabilities. 28 C.F.R. § 35.133.
 - c. The Board shall administer its voting program in the most integrated setting appropriate to the needs of persons with disabilities. *Id.* § 35.130(d).
 - d. The Board shall afford voters with disabilities the same amount of privacy and independence provided to voters without disabilities. *Id.* § 35.130(b)(1)(ii).
 - e. The Board shall take appropriate steps to ensure that communications with voters, applicants, members of the public, and companions with disabilities are as effective as communications with others. *Id.* § 35.160(a)(1).
 - f. The Board shall furnish appropriate auxiliary aids and services where necessary to afford individuals with disabilities, including voters, applicants, companions, and members of the public, an equal opportunity to participate in, and enjoy the benefits of the voting program. Such auxiliary aids and services must be provided in accessible formats, in a timely manner, and in such a way as to protect the privacy and independence of the individual with a disability. *Id.* § 35.160(b).
 - g. Within one hundred (100) days of the Effective Date of this Agreement, the Board shall submit its policies, practices, and procedures to the United States for review and approval. Within thirty (30) days of receiving comments from the United States, the Board shall incorporate in its policies, practices, and procedures any additions or modifications proposed by the United States that bring the Board's policies, practices, and procedures into compliance with the ADA. If the Board has any objections to any additions or modifications from the United States, the parties shall consult in order to resolve any differences. If, after consultation, the parties are unable to resolve their differences, then the Board will implement the policy with the proposed additions or modifications within the required time-period or select a new polling location.
18. The Board shall provide accessible polling places in order to have an accessible

voting program, including a program that is accessible to persons with mobility or vision disabilities. 42 U.S.C. § 12132; 28 C.F.R. §§ 35.130, 35.149. The Board shall select facilities to be used as polling places that do not exclude qualified individuals with disabilities from or deny them the benefits of the polling place, or otherwise subject them to discrimination. 42 U.S.C. § 12132; 28 C.F.R. § 35.130(b)(4).

19. For all elections occurring after the Effective Date of this Agreement, the Board will implement measures to remediate the issues identified in Attachment A, to make those polling place locations Accessible on Election Day or will relocate those locations not remediated to an alternative accessible location pursuant to the process established in Paragraphs 25 and 27 of this Agreement. The Board will provide its remediation plan to the United States within ninety (90) days of the Effective Date of this Agreement. If the Board asserts, and the United States agrees, that remediation and relocation to an accessible polling place location are infeasible, then the Board shall comply with Title II's program accessibility requirements. 28 C.F.R. § 35.150.

20. For all facilities not owned by the Board, the Board shall maintain in operable working condition on Election Day the features and equipment owned by the Board (including temporary equipment such as portable ramps, traffic cones, signs, wedges, and door stops) that are required to make polling places Accessible on Election Day. 28 C.F.R. § 35.133(a). If circumstances arise such that a polling place location not owned by the Board or County that was previously accessible is no longer accessible because the features or equipment owned by the Board are no longer operable, then the Board shall either provide operable temporary equipment or the Board will relocate the polling place to an alternative, accessible location pursuant to the process established in Paragraphs 25 and 27 of this Agreement. If the Board asserts, and the United States agrees, that remediation and relocation to an accessible polling place location are infeasible, then the Board shall comply with Title II's program accessibility requirements. 28 C.F.R. § 35.150.

21. If, more than 30 days prior to a given Election Day, a particular polling place location is no longer accessible, and the Board can neither make it accessible for Election Day nor identify any other accessible facility where it could relocate the polling place location for that Election Day, then the Board will propose, no later than 30 days prior to Election Day, the means by which individuals with disabilities assigned to that polling place will be able to vote on Election Day that complies with Title II's program accessibility requirements under 28 C.F.R. § 35.150. The proposal will include, at minimum, an explanation of why the original polling place could not be used, and an explanation of how the means proposed will comply with the requirements of 28 C.F.R. § 35.150. The proposal will be subject to the United States' review and approval. The United States will not unreasonably withhold approval.

22. If the Board discovers, fewer than 30 days before Election Day, that a particular polling place is no longer accessible and cannot be made accessible, and cannot identify another accessible facility where it could relocate the polling place location for that Election Day, the Board will immediately notify the United States. The parties will determine the date by which the Board will propose a resolution in each such situation and will work together to resolve the issues.

23. The Board agrees that the following measures will be implemented where necessary to make an otherwise inaccessible polling place Accessible on Election Day. The list of measures is not exhaustive; the Board may propose other reasonable, temporary measures subject to the review and approval of the United States.

- a. Portable ramps (including curb ramps) up to and including ramps six feet long, with side edge protection.
- b. Portable wedges or wedge ramps.
- c. Floor mats.
- d. Traffic cones.
- e. Relocating furniture or other movable barriers.
- f. Door stops.
- g. Propping open doors.
- h. Unlocking doors.
- i. Signage, including parking and accessible entrance directional signage.
- j. Portable buzzers or door bells.
- k. Removing astragals (center door posts on double doors) that are not a permanent part of the structure from doorways.

B. Survey and Review of Polling Place Locations

24. The Board will use a polling place accessibility survey instrument that conforms with the 2010 Standards and will use this survey instrument for the duration of this agreement. See attached Exhibit A.¹

25. For all polling place locations that were not surveyed by the United States in the June 7, 2022 Election, the Board will conduct a survey using the survey instrument attached hereto as Exhibit A, referenced in Paragraph 24 of this Agreement. The Board will provide all surveys to the United States on a rolling basis with approximately fifty (50) surveys due by March 6, 2025, and the remainder due by the Primary Election Day in 2025. All surveys to be completed no later than the 2025 Primary Election Day. If the United States disputes the accuracy of a survey, then the Board will have an opportunity to respond and will work with the United States to re-survey the portions of the polling place in question. If the United States concludes that the Board has proposed a remedial provision that does not fully address a barrier

¹ In elections prior to 2025, the Board has used the polling place checklist found at <https://www.ada.gov/resources/polling-places-checklist/>. The Board has also used and plan to continue to use the New Jersey Division of Elections Polling Place Accessibility Checklist.

to accessibility, then the Board will propose and implement, subject to the review and approval of the United States, a remedial measure consistent with Paragraph 23 of this Agreement or relocate a polling place to a location that can be made Accessible on Election Day. If the Board asserts, and the United States agrees, that remediation and relocation to an accessible polling place location are infeasible, then the Board shall comply with Title II's program accessibility requirements. 28 C.F.R. § 35.150.

26. Following the United States' review and approval of a polling place survey, the Board will implement appropriate remedial provisions, if necessary, to make the polling place location Accessible on Election Day. If the Board chooses not to or is unable to implement one or more of the remedial provisions to make a polling place location Accessible on Election Day, it will relocate the inaccessible polling place location to a location that is Accessible on Election Day, selected pursuant to the process established by Paragraphs 25 and 27 of this Agreement. If the Board asserts, and the United States agrees, that remediation and relocation to an accessible polling place location are infeasible, then the Board shall comply with Title II's program accessibility requirements. 28 C.F.R. § 35.150.

27. The Board shall use the survey instrument referenced in Paragraph 24 of this Agreement (Exhibit A) to make all future polling place location selections. If the Board ultimately determines that a newly proposed location is inaccessible (as defined by the survey instrument) and cannot be made Accessible on Election Day, then the Board will reject the location and continue searching until a location that will be Accessible on Election Day can be found subject to Paragraph 25. When the Board identifies a new prospective polling place location, the Board will provide the United States notice within twenty-one (21) days of the selection of the proposed new location, along with copies of all surveys (including photographs, if available) of the polling place. The new polling place location shall be selected pursuant to the process established by Paragraph 25 of this Agreement.

28. If the Board finds that it cannot implement a previously-approved remedial provision for a specific polling place location, the Board will immediately notify and confer with the United States. If the issue cannot be resolved to the United States' satisfaction, the Board will relocate the polling place location to an alternative location that is Accessible on Election Day pursuant to the process established by Paragraphs 25 and 27 of this Agreement.

C. Election Officer and Poll Worker Training

29. For each Primary and General election conducted by the Board during the term of this Agreement, as part of its training program for election officers and poll workers, the Board will continue to provide training on Title II of the ADA and the requirements of this Agreement as applied to the Board's voting program, including:

- a. Voting room or area requirements, including requirements related to setting up the accessible voting machine, under the 2010 ADA Standards;
- b. Temporary remedial measures, including: (a) why such measures are necessary; (b) how the measures must be implemented (*e.g.*, how to install ramps, the placement of mats over (and not in front of) thresholds); and (c) a description of

the role of the Board's EDSs, as set forth in Paragraph 31 of this Agreement, and the need to follow the instructions of the EDSs regarding the implementation of temporary measures on Election Day;

- c. Interacting with individuals with disabilities and making reasonable modifications necessary to ensure that qualified individuals with disabilities are afforded an equal opportunity to participate in the Board's voting program; and
- d. The Board's policies, practices, and procedures, including the policies, practices, and procedures pursuant to Paragraph 17 and Section F.

30. For each session of the training conducted under this Agreement, the Board shall maintain attendance logs reflecting the date of the training, names and titles of attendees, and the attendees' signatures. The Board may continue its current practice of electronically checking in trainees and that check in process will record trainees' attendance.

31. Prior to each election during the term of this Agreement, the Board will provide training to all EDSs (master poll workers) designated pursuant to Paragraph 33 of this Agreement. The training of the EDSs will address: (a) temporary measures, including why they are needed and how the measures must be implemented (*e.g.*, how to install ramps, the placement of mats over (and not in front of) thresholds); (b) how to resolve errors in the implementation of temporary measures on Election Day; (c) how to document the implementation of temporary measures on Election Day using checklists or compliance review forms referenced in Paragraph 32 of this Agreement; and (d) what the EDSs are required to do to implement the requirements of this Agreement.

D. Election Day Compliance Review

32. Beginning in 2025, the Board will use Exhibit A as a survey instrument of the temporary measures to be implemented on Election Day at each polling place location where such measures are required. The checklist shall be included in the materials provided to each election officer for Election Day and provided to each Board employee or vendor involved in installing or implementing temporary measures for Election Day. The checklist shall include clear instructions and diagrams/photos for the remedial measures to be implemented by the polling place election officer. Copies of this, instructions, and diagrams/photos will be provided to the United States no later than forty-five (45) days before each annual General Election Day.

33. The Board will designate its master poll workers as EDSs to review compliance at the polling place locations where temporary measures are to be implemented on Election Day. The Board will provide at least five teams of two members in each countywide election on Election Day. For each election that is not countywide, the Board will field a number of teams that is similarly proportionate to the size of the election. The EDSs shall review compliance with as many polling place locations in each election as is reasonable, with a minimum of twenty (20) polling places reviewed in each election on Election Day for each team. Any polling place location found by the EDSs to be non-compliant in an election on Election Day shall be reviewed by EDSs in the subsequent election. The EDSs shall review polling places where temporary measures are to be implemented on a rotating basis so that they are not reviewing the same

polling place locations in a subsequent election on Election Day, except for those found to be non-compliant.

34. The Board and the EDSs will use the checklist (attached hereto as Exhibit A) to review compliance on Election Day. The EDSs shall document their compliance reviews (both compliant and non-compliant polling place locations) with detailed photographs. After documenting a non-compliant polling place location, the EDSs shall remedy any non-compliant implementation of a temporary remedy when possible. Copies of these compliance reviews will be provided to the United States within sixty (60) days after each annual Primary and General Election.

35. If the Board does not properly implement the temporary remedial measures necessary at a particular polling place location on Election Day in two (2) consecutive elections, then the Board will no longer use the polling place location and will relocate it to a location that is Accessible on Election Day. If the Board asserts, and the United States agrees, that remediation and relocation to an accessible polling place location are infeasible, then the Board shall comply with Title II's program accessibility requirements. 28 C.F.R. § 35.150.

E. Staff Training

36. Within one hundred twenty (120) days of the Effective Date of this Agreement, the Board will provide training from an outside source to all Board employees and any relevant contractors or vendors, including those who conduct surveys or implement temporary measures, on Title II of the ADA and the requirements of this Agreement as applied to the Board's voting program, including:

- a. Polling place accessibility requirements under the 2010 ADA Standards;
- b. Temporary remedial measures, including: (a) why such measures are necessary; (b) how the measures must be implemented (*e.g.*, how to install ramps, the placement of mats over (and not in front of) thresholds); and (c) a description of the role of the Board's EDSs, as set forth in Paragraph 31 of this Agreement, and the need to follow the instructions of the EDSs regarding the implementation of temporary measures on Election Day;
- c. Interacting with individuals with disabilities and making reasonable modifications necessary to ensure that qualified individuals with disabilities are afforded an equal opportunity to participate in the Board's voting program; and
- d. The Board's policies, practices, and procedures, including the policies, practices, and procedures pursuant to Paragraphs 17 and Section F.

37. The Board may record the initial training to use for employees hired after the initial training. The Board will provide this training on an annual basis for the duration of this Agreement. The Board must obtain the United States' approval of the trainer and the materials to be used in the training.

38. For each session of the training conducted under this Agreement, the Board shall

maintain attendance logs reflecting the date of the training, names and titles of attendees, and the attendees' signatures.

F. Complaint Collection and Review Process

39. Within one hundred (100) days of the Effective Date of this Agreement, the Board will submit for approval by the United States procedures providing for the receipt of and prompt and equitable resolution of complaints alleging that the Board's voting program discriminates against persons with disabilities. 28 C.F.R. § 35.107(b). Within ten (10) days of receiving comments from the United States, the Board shall incorporate in its policies, practices, and procedures any additions or modifications proposed by the United States that bring the Board's policies, practices, and procedures into compliance with the ADA.

40. The complaint procedures shall include procedures for election officers and poll workers to gather and document appropriate information from a complainant on site at a polling place during an election on Election Day, and for the Board to accept and document phone calls and emails received prior to, during, and after an election. The Board will publish the complaint procedures on the Board's website and provide notices at each polling place during each election on Election Day. These procedures will be in place for all elections on Election Day, beginning with the 2025 Primary Election.

41. Throughout the term of this Agreement, the Board will designate an employee to serve as an ADA Coordinator for the Board. The ADA Coordinator will continue to be trained in and knowledgeable about the ADA and the terms of this Agreement, and will investigate any complaint that the Board, election judges, or any other person under the authority or control of the Board receives alleging that the Board's voting program discriminates against persons with disabilities. The ADA Coordinator will also implement the complaint procedures described in Paragraph 36. 28 C.F.R. § 35.107(a).

42. The Board will publish a Notice to Voters with Disabilities on its website and at all polling places for all elections within one hundred twenty (120) days of the Effective Date of this Agreement, and for the term of this Agreement, that notifies voters of the name of, and contact information for, the Board's ADA Coordinator.

43. Every ninety (90) days, after the annual Primary Election and General Election, beginning with the 2025 Primary Election, the Board will provide a written report to the United States including summaries of any written complaints, complaints received as voice messages or other audio files, or written descriptions of verbal complaints, that the Board, the election officers or poll workers, or any other person under the authority or control of the Board receives alleging that the Board's voting program discriminates against persons with disabilities; and any written responses provided by the Board and a written description of actions taken in response to such complaints. The Board will provide the United States with copies of any written complaints, complaints received as voice messages or other audio files, or written descriptions of verbal complaints, upon request.

III. Enforcement and Miscellaneous Provisions

44. Delivery of Materials: All notices, demands, or other communications including reporting materials sent to the United States pursuant to this Agreement shall be in writing and delivered by e-mail to thandiwe.boylan@usdoj.gov (or to any other e-mail address that the United States designates during the term of this Agreement) or by overnight delivery to U.S. Attorney's Office, District of New Jersey, Civil Rights Division, ATTN: Thandiwe Boylan, Assistant U.S. Attorney, 970 Broad Street, Newark, NJ 07102. The cover letter shall include a subject line referencing the Board and USAO No. 2020V00122.

45. Reviewing Compliance: The United States and the Board may review compliance with this Agreement at any time. The Board will cooperate fully with the United States' efforts to monitor compliance with this Agreement, including by providing the United States with timely access to polling places on Election Day, maps, surveys, employees, contractors, training sessions, relevant documents, and other reasonably requested information. At least biannually, the parties will confer to assess the Board's compliance with this Agreement. If the United States believes that the Board has failed to comply in a timely manner with any requirement of this Agreement, or that any requirement has been violated, the United States will so notify the Board in writing and will attempt to resolve the issue in good faith. If the United States is unable to reach a satisfactory resolution of the issue within thirty (30) days of the date it notifies the Board, the United States may file a civil action in federal district court to enforce the terms of this Agreement, or take any other action to enforce Title II of the ADA.

46. Term: This Agreement shall terminate in three years.

47. Entire Agreement: This Agreement, including Attachment A, constitutes the entire agreement between the United States and the Board on the matters raised herein and no other statement or promise, written or oral, made by any party or agents of any party, that is not contained in this written Agreement, including Attachment A, shall be enforceable.

48. Severability: If any term of this Agreement is determined by any court to be unenforceable, the other terms of this Agreement shall nonetheless remain in full force and effect.

49. Non-Waiver: Failure by the United States to enforce any provisions or deadlines in this Agreement shall not be construed as a waiver of the right of the United States to enforce any deadlines or provisions of this Agreement.

50. Limitation: This Agreement is limited to resolving claims under Title II of the ADA related to the facts specifically set forth in Paragraphs 1 through 4, above, concerning physical accessibility of polling places. Nothing in this Agreement relates to other provisions of the ADA or affects the Board's obligations to comply with any other federal, state, or local statutory, administrative, regulatory, or common law obligation, including those relating to nondiscrimination against individuals with disabilities.

51. Modifications: Any modifications of this Agreement, such as extensions of the time limits for performance imposed by the Agreement, may be made only by the mutual written consent of the Parties.

52. **Binding Nature of Agreement:** This Agreement shall be applicable to and binding upon the Board, its officers, agents, employees, and assigns.

53. **Preservation of Documents:** Throughout the term of this Agreement, the Board shall preserve documents, electronically stored information, or other information related to this Agreement and necessary to determining the Board's compliance with this Agreement.

54. **Counterparts:** This Agreement may be executed in any number of counterparts, each of which is an original, and all of which taken together constitute one single document.

55. **Publicly Available:** A copy of this document will be made available to any person by the Board on request.

Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| 1st Reformed Church | 53 Centre Ave | Secaucus | NJ | Religious | Entrance | G2 | Ramp | Ramp Cross Slope | Ramp cross slope exceeds 2.08% | 4.8.6 | 405.3 | 405.3 Cross Slope. Cross slope of ramp runs shall not be steeper than 1:48. |
| 1st Reformed Church | 53 Centre Ave | Secaucus | NJ | Religious | Entrance | G5 | Ramp | Ramp Landing | The ramp does not have a level landing at the top of each ramp run | 4.8.4 | 405.7 | 405.7 Landings. Ramps shall have landings at the top and the bottom of each ramp run. Landings shall comply with 405.7. |
| 1st Reformed Church | 53 Centre Ave | Secaucus | NJ | Religious | Entrance | G5 | Ramp | Ramp Landing | The ramp does not have a level landing at the bottom of each ramp run | 4.8.4 | 405.7 | 405.7 Landings. Ramps shall have landings at the top and the bottom of each ramp run. Landings shall comply with 405.7. |
| 1st Reformed Church | 53 Centre Ave | Secaucus | NJ | Religious | Entrance | G8 | Ramp | Ramp Handrail | The ramp rises more than 6" and handrails are not provided on each side of the ramp | 4.8.5 | 405.8 | 405.8 Handrails. Ramp runs with a rise greater than 6 inches (150 mm) shall have handrails complying with 505. |
| Daniel Webster School | 2700 Palisade Ave | Weehawken | NJ | School | Exterior Route to Entrance | C2 | Exterior Route from Public Sidewalk to Entrance | Changes in Level | The route from the public sidewalk to the accessible entrance includes abrupt changes in level greater than ½" | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ½ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ½ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Daniel Webster School | 2700 Palisade Ave | Weehawken | NJ | School | Voting Area | F7 | Voting Area | Accessible Voting Machine Turning Space | The turning space in front of at least one accessible voting machine is less than 60" in diameter | 4.2.3 | 304.3 | 304.3 Size. Turning space shall comply with 304.3.1 or 304.3.2. 304.3.1 Circular Space. The turning space shall be a space of 60 inches (1525 mm) diameter minimum. The space shall be permitted to include knee and toe clearance complying with 306. 304.3.2 T-Shaped Space. The turning space shall be a T-shaped space within a 60 inch (1525 mm) square minimum with arms and base 36 inches (915 mm) wide minimum. Each arm of the T shall be clear of obstructions 12 inches (305 mm) minimum in each direction and the base shall be clear of obstructions 24 inches (610 mm) minimum. The space shall be permitted to include knee and toe clearance complying with 306 only at the end of either the base or one arm. |
| Daniel Webster School | 2700 Palisade Ave | Weehawken | NJ | School | Entrance | G1 | Ramp | Ramp Slope | Ramp running slope exceeds 8.33% | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Daniel Webster School | 2700 Palisade Ave | Weehawken | NJ | School | Entrance | G2 | Ramp | Ramp Cross Slope | Ramp cross slope exceeds 2.08% | 4.8.6 | 405.3 | 405.3 Cross Slope. Cross slope of ramp runs shall not be steeper than 1:48. |
| Daniel Webster School | 2700 Palisade Ave | Weehawken | NJ | School | Entrance | G6 | Ramp | Ramp Landing | The ramp intermediate landing slopes more than 2.08% | 4.8.4 | 405.7.1 | 405.7.1 Slope. Landings shall comply with 302. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Holy Cross Armenian Church Center | 2610 Bergenline Ave | Union City | NJ | Religious | Exterior Route to Entrance | C2 | Entrance | Changes in Level | The route from the public sidewalk to the accessible entrance includes abrupt changes in level greater than ½" | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ½ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ½ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Parking | A2 | Parking | Access Aisle Width | Access aisle is not wide enough at designated accessible parking space | 4.6.3 | 502.2 502.3 | 502.2 Vehicle Spaces. Car parking spaces shall be 96 inches (2440 mm) wide minimum and van parking spaces shall be 132 inches (3350 mm) wide minimum, shall be marked to define the width, and shall have an adjacent access aisle complying with 502.3. EXCEPTION: Van parking spaces shall be permitted to be 96 inches (2440 mm) wide minimum where the access aisle is 96 inches (2440 mm) wide minimum. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Parking | A4 | Parking | Parking Surface | Parking/access aisle slope exceeds 2.08% | 4.6.3 | 502.4 | 502.3 Access Aisle. Access aisles serving parking spaces shall comply with 502.3. Access aisles shall adjoin an accessible route. Two parking spaces shall be permitted to share a common access aisle. 502.4 Floor or Ground Surfaces. Parking spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the parking spaces they serve. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Exterior Route to Entrance | C3 | Exterior Route from Parking and Public Sidewalk to Entrance | Openings | The route from accessible parking to the accessible entrance includes surface openings greater than ½" wide | 4.5.4 | 302.3 | 302.3 Openings. Openings in floor or ground surfaces shall not allow passage of a sphere more than ½ inch (13 mm) diameter except as allowed in 407.4.3, 409.4.3, 410.4, 810.5.3 and 810.10. Elongated openings shall be placed so that the long dimension is perpendicular to the dominant direction of travel. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Exterior Route to Entrance | C3 | Exterior Route from Parking and Public Sidewalk to Entrance | Openings | The route from accessible parking to the accessible entrance includes surface openings greater than ½" wide | 4.5.4 | 302.3 | 302.3 Openings. Openings in floor or ground surfaces shall not allow passage of a sphere more than ½ inch (13 mm) diameter except as allowed in 407.4.3, 409.4.3, 410.4, 810.5.3 and 810.10. Elongated openings shall be placed so that the long dimension is perpendicular to the dominant direction of travel. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Exterior Route to Entrance | C9 | Exterior Route from Parking and Public Sidewalk to Entrance | Running Slope | The route from accessible parking to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Exterior Route to Entrance | C10 | Exterior Route from Parking and Public Sidewalk to Entrance | Cross Slope | The route from accessible parking to the accessible entrance has cross slope that exceeds 2.08% | 4.3.7 | 403.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Huber Street School | 1520 Patterson Plank Rd | Secaucus | NJ | School | Exterior Route to Entrance | C10 | Exterior Route from Parking and Public Sidewalk to Entrance | Cross Slope | The route from accessible parking to the accessible entrance has cross slope that exceeds 2.08% | 4.3.7 | 403.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Parking | A1 | Parking | Scoping | Van accessible parking is not provided | 4.1.2(5)(b) | 208.2 208.2.4 | 208.2 Minimum Number. Parking spaces complying with 502 shall be provided in accordance with Table 208.2 except as required by 208.2.1, 208.2.2, and 208.2.3. Where more than one parking facility is provided on a site, the number of accessible spaces provided on the site shall be calculated according to the number of spaces required for each parking facility. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Parking | A1 | Parking | Signage | International Symbol of Accessibility signage is not provided | 4.6.4 | 502.6 | 208.2.4 Van Parking Spaces. For every six or fraction of six parking spaces required by 208.2 to comply with 502, at least one shall be a van parking space complying with 502. 502.6 Identification. Parking space identification signs shall include the International Symbol of Accessibility complying with 703.7.2.1. Signs identifying van parking spaces shall contain the designation "van accessible." Signs shall be 60 inches (1525 mm) minimum above the finish floor or ground surface measured to the bottom of the sign. |

|------------------------------------|-------------------|--------------|----|-----------|----------------------------|-----|---|------------------------------------|--|------------------------------------|------------------------------------|--|
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Parking | A2 | Parking | Access Aisle Width | An access aisle is not provided at the designated accessible parking space | 4.6.3 | 502.2 502.3 | 502.2 Vehicle Spaces. Car parking spaces shall be 96 inches (2440 mm) wide minimum and van parking spaces shall be 132 inches (3350 mm) wide minimum, shall be marked to define the width, and shall have an adjacent access aisle complying with 502.3. EXCEPTION: Van parking spaces shall be permitted to be 96 inches (2440 mm) wide minimum where the access aisle is 96 inches (2440 mm) wide minimum. 502.3 Access Aisle. Access aisles serving parking spaces shall comply with 502.3. Access aisles shall adjoin an accessible route. Two parking spaces shall be permitted to share a common access aisle. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Parking | A4 | Parking | Parking Surface | Parking/access aisle slope exceeds 2.08% | 4.6.3 | 502.4 | 502.4 Floor or Ground Surfaces. Parking spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the parking spaces they serve. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Exterior Route to Entrance | C9 | Exterior Route from Parking to Entrance | Running Slope | The route from accessible parking to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Exterior Route to Entrance | C9 | Exterior Route from Public Sidewalk to Entrance | Running Slope | The route from the public sidewalk to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from the public sidewalk to the accessible entrance has cross slope that exceeds 2.08% | 4.3.9 | 405.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Route to Voting Area | E8 | Route to Voting Area | Door Clear Width | The clear width of the door from the entrance into the voting area is less than 32" | 4.13.5 | 404.2.3 | 404.2.3 Clear Width. Door openings shall provide a clear width of 32 inches (815 mm) minimum. Clear openings of doorways with swinging doors shall be measured between the face of the door and the stop, with the door open 90 degrees. Openings more than 24 inches (610 mm) deep shall provide a clear opening of 36 inches (915 mm) minimum. There shall be no projections into the required clear opening width lower than 34 inches (865 mm) above the finish floor or ground. Projections into the clear opening width between 34 inches (865 mm) and 80 inches (2030 mm) above the finish floor or ground shall not exceed 4 inches (100 mm). EXCEPTIONS: 1. In alterations, a projection of 5/8 inch (16 mm) maximum into the required clear width shall be permitted for the latch side stop. 2. Door closers and door stops shall be permitted to be 78 inches (1980 mm) minimum above the finish floor or ground. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Exterior Route to Entrance | G1 | Exterior Route from Public Sidewalk to Entrance | Ramp Slope | Ramp running slope exceeds 8.33% | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Joseph's Roman Catholic Church | 511 Pavonia Ave | Jersey City | NJ | Religious | Route to Voting Area | H1 | Platform Lift | Maintenance of Accessible Features | The lift is not operational | 28 CFR §535.130 28 CFR §535.133 | 28 CFR §535.130 28 CFR §535.133 | 35.130(a) No qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any public entity. 35.133(a) A public entity shall maintain in operable working condition those features of facilities and equipment that are required to be readily accessible to and usable by persons with disabilities by the Act or this part. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | D4 | Entrance | Door Maneuvering Clearance | The polling place entrance door maneuvering clearance slopes more than 2.08% | 4.13.6 | 404.2.4.4 | 404.2.4.4 Floor or Ground Surface. Floor or ground surface within required maneuvering clearances shall comply with 302. Changes in level are not permitted. EXCEPTIONS: 1. Slopes not steeper than 1:48 shall be permitted. 2. Changes in level at thresholds complying with 404.2.5 shall be permitted. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | D6 | Entrance | Door Opening Force | The interior door of the doors in series requires more than 5 pounds of force to operate | 4.13.11 | 404.2.9 | 404.2.9 Door and Gate Opening Force. Fire doors shall have a minimum opening force allowable by the appropriate administrative authority. The force for pushing or pulling open a door or gate other than fire doors shall be as follows: 1. Interior hinged doors and gates: 5 pounds (22.2 N) maximum. 2. Sliding or folding doors: 5 pounds (22.2 N) maximum. These forces do not apply to the force required to retract latch bolts or disengage other devices that hold the door or gate in a closed position. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | D7 | Entrance | Door Maneuvering Clearance | The maneuvering clearance at the second door of the doors in series is less than required | 4.13.6 4.8.4 | 404.2.4.4 405.7.1 | 404.2.4.4 Floor or Ground Surface. Floor or ground surface within required maneuvering clearances shall comply with 302. Changes in level are not permitted. EXCEPTIONS: 1. Slopes not steeper than 1:48 shall be permitted. 2. Changes in level at thresholds complying with 404.2.5 shall be permitted. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | D8 | Entrance | Door Threshold | The entrance door threshold is higher than ½" tall | 4.13.8 | 404.2.5 | 405.7.1 Slope. Landings shall comply with 302. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. 404.2.5 Thresholds. Thresholds, if provided at doorways, shall be ½ inch (13 mm) high maximum. Raised thresholds and changes in level at doorways shall comply with 302 and 303. EXCEPTION: Existing or altered thresholds ½ inch (19 mm) high maximum that have a beveled edge on each side with a slope not steeper than 1:2 shall not be required to comply with 404.2.5. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | G5 | Ramp | Ramp Landing | The ramp does not have a level landing at the top of each ramp run | 4.8.4 | 405.7 | 405.7 Landings. Ramps shall have landings at the top and the bottom of each ramp run. Landings shall comply with 405.7. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | G5 | Ramp | Ramp Landing | The ramp bottom landing slopes more than 2.08% | 4.8.4 | 405.7.1 | 405.7.1 Slope. Landings shall comply with 302. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | G8 | Ramp | Ramp Handrail | The ramp rises more than 6" and handrails are not provided on each side of the ramp | 4.8.5 | 405.8 | 405.8 Handrails. Ramp runs with a rise greater than 6 inches (150 mm) shall have handrails complying with 505. |
| Kearny Board of Education Office | 172 Midland Ave | Kearny | NJ | Civic | Entrance | G9 | Ramp | Ramp Edge Protection | Compliant edge protection is not provided | 4.8.7 | 405.9.2 | 405.9.2 Curb or Barrier. A curb or barrier shall be provided that prevents the passage of a 4 inch (100 mm) diameter sphere, where any portion of the sphere is within 4 inches (100 mm) of the finish floor or ground surface. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Parking | A1 | Parking | Scoping | Accessible parking is not provided | 4.1.2(5)(b) | 208.2 | 208.2 Minimum Number. Parking spaces complying with 502 shall be provided in accordance with Table 208.2 except as required by 208.2.1, 208.2.2, and 208.2.3. Where more than one parking facility is provided on a site, the number of accessible spaces provided on the site shall be calculated according to the number of spaces required for each parking facility. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | C9 | Exterior Route from Public Sidewalk to Entrance | Running Slope | The route from the public sidewalk to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from the public sidewalk to the accessible entrance has cross slope that exceeds 2.08% | 4.3.9 | 405.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Entrance | D3 | Entrance | Door Maneuvering Clearance | The maneuvering clearance at the polling place entrance door is less than required | 4.13.6 4.8.4 | 404.2.4.4 405.7.1 | 404.2.4.4 Floor or Ground Surface. Floor or ground surface within required maneuvering clearances shall comply with 302. Changes in level are not permitted. EXCEPTIONS: 1. Slopes not steeper than 1:48 shall be permitted. 2. Changes in level at thresholds complying with 404.2.5 shall be permitted. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | G1 | Ramp | Ramp Slope | Ramp running slope exceeds 8.33% | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | G5 | Ramp | Ramp Landing | The top ramp landing is less than 60" long | 4.8.4(2) | 405.7.3 | 405.7.3 Length. The landing clear length shall be 60 inches (1525 mm) long minimum. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | G5 | Ramp | Ramp Landing | The ramp bottom landing slopes more than 2.08% | 4.8.4 | 405.7.1 | 405.7.1 Slope. Landings shall comply with 302. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | G8 | Ramp | Ramp Handrail | The ramp rises more than 6" and handrails are not provided on each side of the ramp | 4.8.5 | 405.8 | 405.8 Handrails. Ramp runs with a rise greater than 6 inches (150 mm) shall have handrails complying with 505. |
| Los Pentecostales De Newark Church | 575 Kearny Ave | Kearny | NJ | Religious | Exterior Route to Entrance | G9 | Ramp | Ramp Edge Protection | Compliant edge protection is not provided | 4.8.7 | 405.9.2 | 405.9.2 Curb or Barrier. A curb or barrier shall be provided that prevents the passage of a 4 inch (100 mm) diameter sphere, where any portion of the sphere is within 4 inches (100 mm) of the finish floor or ground surface. |
| North Bergen High School | 7417 Kennedy Blvd | North Bergen | NJ | School | Exterior Route to Entrance | C4 | Exterior Route from Public Sidewalk to Entrance | Walking Surface | The surface of the route from the public sidewalk to the accessible entrance is not stable/firm/slip resistant | 4.5.1 | 302.1 | 302.1 General. Floor and ground surfaces shall be stable, firm, and slip resistant and shall comply with 302. |

| North Bergen High School | 7417 Kennedy Blvd | North Bergen | NJ | School | Exterior Route to Entrance | D9 | Entrance | Directional Signage | The inaccessible entrance does not have signage directing voters to the accessible entrance | 4.1.2(7)(c) | 216.6 | 216.6 Entrances. Where not all entrances comply with 404, entrances complying with 404 shall be identified by the International Symbol of Accessibility complying with 703.7.2.1. Directional signs complying with 703.5 that indicate the location of the nearest entrance complying with 404 shall be provided at entrances that do not comply with 404. |
| North Bergen High School | 7417 Kennedy Blvd | North Bergen | NJ | School | Route to Voting Area | E5 | Route to Voting Area | Changes in Level | The route from the entrance to the voting area includes stairs | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. |
| North Bergen Public Library | 8411 Bergenline Ave | North Bergen | NJ | Civic | Parking | A1 | Parking | Signage | "Van Accessible" signage is not provided | 4.6.4 | 502.6 | 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| North Bergen Public Library | 8411 Bergenline Ave | North Bergen | NJ | Civic | Parking | A2 | Parking | Access Aisle Width | An access aisle is not provided at the designated accessible parking space | 4.6.3 | 502.2 502.3 | 502.6 Identification. Parking space identification signs shall include the International Symbol of Accessibility complying with 703.7.2.1. Signs identifying van parking spaces shall contain the designation "van accessible." Signs shall be 60 inches (1525 mm) minimum above the finish floor or ground surface measured to the bottom of the sign. 502.2 Vehicle Spaces. Car parking spaces shall be 96 inches (2440 mm) wide minimum and van parking spaces shall be 132 inches (3350 mm) wide minimum, shall be marked to define the width, and shall have an adjacent access aisle complying with 502.3. EXCEPTION: Van parking spaces shall be permitted to be 96 inches (2440 mm) wide minimum where the access aisle is 96 inches (2440 mm) wide minimum. |
| North Bergen Public Library | 8411 Bergenline Ave | North Bergen | NJ | Civic | Parking | A4 | Parking | Parking Surface | Parking/access aisle slope exceeds 2.08% | 4.6.3 | 502.4 | 502.3 Access Aisle. Access aisles serving parking spaces shall comply with 502.3. Access aisles shall adjoin an accessible route. Two parking spaces shall be permitted to share a common access aisle. 502.4 Floor or Ground Surfaces. Parking spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the parking spaces they serve. Changes in level are not permitted. |
| North Bergen Public Library | 8411 Bergenline Ave | North Bergen | NJ | Civic | Parking | A4 | Parking | Parking Surface | Curb/ramp in parking space/access aisle causes slope that exceeds 2.08% | 4.6.3 | 502.4 | EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| North Bergen Public Library | 8411 Bergenline Ave | North Bergen | NJ | Civic | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from accessible parking to the accessible entrance has cross slope that exceeds 2.08% | 4.3.7 | 403.3 | 502.4 Floor or Ground Surfaces. Parking spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the parking spaces they serve. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| PS 4 School | 6300 Palisade Ave | West New York | NJ | School | Parking | A1 | Parking | Signage | "Van Accessible" signage is not provided | 4.6.4 | 502.6 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| PS 4 School | 6300 Palisade Ave | West New York | NJ | School | Parking | A4 | Parking | Parking Surface | Parking/access aisle slope exceeds 2.08% | 4.6.3 | 502.4 | 502.6 Identification. Parking space identification signs shall include the International Symbol of Accessibility complying with 703.7.2.1. Signs identifying van parking spaces shall contain the designation "van accessible." Signs shall be 60 inches (1525 mm) minimum above the finish floor or ground surface measured to the bottom of the sign. |
| PS 4 School | 6300 Palisade Ave | West New York | NJ | School | Exterior Route to Entrance | C8 | Exterior Route from Public Sidewalk to Entrance | Curb Ramp Slope | The curb ramp slope exceeds 8.33% from the public sidewalk to the accessible entrance | 4.8.2 | 405.2 | 502.4 Floor or Ground Surfaces. Parking spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the parking spaces they serve. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| PS 4 School | 6300 Palisade Ave | West New York | NJ | School | Exterior Route to Entrance | C10 | Exterior Route from Parking to Entrance | Cross Slope | The route from accessible parking to the accessible entrance has cross slope that exceeds 2.08% | 4.3.7 | 403.3 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| PS 4 School | 6300 Palisade Ave | West New York | NJ | School | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from the public sidewalk to the accessible entrance has cross slope that exceeds 2.08% | 4.3.9 | 405.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Parking | A1 | Parking | Scoping | Accessible parking is not provided | 4.1.2(5)(b) | 208.2 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Exterior Route to Entrance | C2 | Exterior Route from Parking to Entrance | Changes in Level | The route from accessible parking to the accessible entrance includes abrupt changes in level greater than ¼" | 4.5.2 | 303.2 303.3 | 208.2 Minimum Number. Parking spaces complying with 502 shall be provided in accordance with Table 208.2 except as required by 208.2.1, 208.2.2, and 208.2.3. Where more than one parking facility is provided on a site, the number of accessible spaces provided on the site shall be calculated according to the number of spaces required for each parking facility. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Exterior Route to Entrance | C2 | Exterior Route from Public Sidewalk to Entrance | Changes in Level | The route from the public sidewalk to the accessible entrance includes stairs | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Exterior Route to Entrance | C9 | Exterior Route from Public Sidewalk to Entrance | Running Slope | The route from the public sidewalk to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Entrance | D4 | Entrance | Door Maneuvering Clearance | The polling place entrance door maneuvering clearance includes abrupt changes in level | 4.13.6 | 404.2.4.4 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. |
| Senior Citizen Center (East Newark) | 37 President Str | East Newark | NJ | Civic | Entrance | D9 | Entrance | Directional Signage | The inaccessible entrance does not have signage directing voters to the accessible entrance | 4.1.2(7)(c) | 216.6 | 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Senior Citizen Center (Weehawken) | 525 Gregory Ave | Weehawken | NJ | Civic | Parking | A1 | Parking | Scoping | Van accessible parking is not provided | 4.1.2(5)(b) | 208.2 208.2.4 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Senior Citizen Center (Weehawken) | 525 Gregory Ave | Weehawken | NJ | Civic | Passenger Drop-Off | B2 | Passenger Drop-Off | Drop-Off Area Surface | Passenger drop-off area access aisle slope exceeds 2.08% | 4.6.6 | 503.4 | EXCEPTIONS: 1. Slopes not steeper than 1:48 shall be permitted. 2. Changes in level at thresholds complying with 404.2.5 shall be permitted. |
| Senior Citizen Center (Weehawken) | 525 Gregory Ave | Weehawken | NJ | Civic | Exterior Route to Entrance | C3 | Exterior Route from Passenger Drop-Off to Entrance | Openings | The route from the passenger drop-off area to the accessible entrance includes surface openings greater than ½" wide | 4.5.4 | 302.3 | 216.6 Entrances. Where not all entrances comply with 404, entrances complying with 404 shall be identified by the International Symbol of Accessibility complying with 703.7.2.1. Directional signs complying with 703.5 that indicate the location of the nearest entrance complying with 404 shall be provided at entrances that do not comply with 404. |
| Senior Citizen Center (Weehawken) | 525 Gregory Ave | Weehawken | NJ | Civic | Exterior Route to Entrance | C10 | Exterior Route from Parking to Entrance | Cross Slope | The route from accessible parking to the accessible entrance has cross slope that exceeds 2.08% | 4.3.7 | 403.3 | 208.2 Minimum Number. Parking spaces complying with 502 shall be provided in accordance with Table 208.2 except as required by 208.2.1, 208.2.2, and 208.2.3. Where more than one parking facility is provided on a site, the number of accessible spaces provided on the site shall be calculated according to the number of spaces required for each parking facility. |
| Senior Citizen Center (Weehawken) | 525 Gregory Ave | Weehawken | NJ | Civic | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from the public sidewalk to the accessible entrance has cross slope that exceeds 2.08% | 4.3.9 | 405.3 | 208.2.4 Van Parking Spaces. For every six or fraction of six parking spaces required by 208.2 to comply with 502, at least one shall be a van parking space complying with 502. |
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Parking | A1 | Parking | Scoping | Van accessible parking is not provided | 4.1.2(5)(b) | 208.2 208.2.4 | 503.4 Floor and Ground Surfaces. Vehicle pull-up spaces and access aisles serving them shall comply with 302. Access aisles shall be at the same level as the vehicle pull-up space they serve. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Parking | A2 | Parking | Access Aisle Width | The access aisle is not provided on the passenger side of the parking space. | 4.6.3 | 502.2 502.3 | 302.3 Openings. Openings in floor or ground surfaces shall not allow passage of a sphere more than ½ inch (13 mm) diameter except as allowed in 407.4.3, 409.4.3, 410.4, 810.5.3 and 810.10. Elongated openings shall be placed so that the long dimension is perpendicular to the dominant direction of travel. |
| | | | | | | | | | | | | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| | | | | | | | | | | | | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| | | | | | | | | | | | | 208.2.4 Van Parking Spaces. For every six or fraction of six parking spaces required by 208.2 to comply with 502, at least one shall be a van parking space complying with 502. |
| | | | | | | | | | | | | 502.2 Vehicle Spaces. Car parking spaces shall be 96 inches (2440 mm) wide minimum and van parking spaces shall be 132 inches (3350 mm) wide minimum, shall be marked to define the width, and shall have an adjacent access aisle complying with 502.3. EXCEPTION: Van parking spaces shall be permitted to be 96 inches (2440 mm) wide minimum where the access aisle is 96 inches (2440 mm) wide minimum. |
| | | | | | | | | | | | | 502.3 Access Aisle. Access aisles serving parking spaces shall comply with 502.3. Access aisles shall adjoin an accessible route. Two parking spaces shall be permitted to share a common access aisle. |

Accessibility Site Surveys
Union County, NJ Polling Places
November 6, 2018

| | | | | | | | | | | | | |
|--------------------------|--------------------|---------------|----|-----------|-------------------------------|-----|---|----------------------|--|------------------------------------|------------------------------------|---|
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Exterior Route to Entrance | C2 | Exterior Route from Parking to Entrance | Changes in Level | The route from accessible parking to the accessible entrance includes abrupt changes in level greater than ¼" | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Exterior Route to Entrance | C3 | Exterior Route from Parking to Entrance | Openings | The route from accessible parking to the accessible entrance includes surface openings greater than ½" wide | 4.5.4 | 302.3 | 302.3 Openings. Openings in floor or ground surfaces shall not allow passage of a sphere more than ½ inch (13 mm) diameter except as allowed in 407.4.3, 409.4.3, 410.4, 810.5.3 and 810.10. Elongated openings shall be placed so that the long dimension is perpendicular to the dominant direction of travel. |
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Voting Area | F2 | Voting Area | Protruding Object | The voting area includes wall mounted objects that protrude more than 4" into the circulation path that are between 27" and 80" high | 4.4.1 | 307.2 | 307.2 Protrusion Limits. Objects with leading edges more than 27 inches (685 mm) and not more than 80 inches (2030 mm) above the finish floor or ground shall protrude 4 inches (100 mm) maximum horizontally into the circulation path. EXCEPTION: Handrails shall be permitted to protrude 4½ inches (115 mm) maximum. |
| Sunshine Gardens | 515 54th Str | West New York | NJ | Civic | Ramp | G5 | Ramp | Ramp Landing | The ramp bottom landing slopes more than 2.08% | 4.8.4 | 405.7.1 | 405.7.1 Slope. Landings shall comply with 302. Changes in level are not permitted. EXCEPTION: Slopes not steeper than 1:48 shall be permitted. |
| Washington Middle School | 1 N 5th Str | Harrison | NJ | School | Exterior Route to Entrance | C2 | Exterior Route from Public Sidewalk to Entrance | Changes in Level | The route from the public sidewalk to the accessible entrance includes abrupt changes in level greater than ¼" | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Washington Middle School | 1 N 5th Str | Harrison | NJ | School | Exterior Route to Entrance | C2 | Exterior Route from Public Sidewalk to Entrance | Changes in Level | The route from the public sidewalk to the accessible entrance includes stairs | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Washington Middle School | 1 N 5th Str | Harrison | NJ | School | Entrance | D9 | Entrance | Directional Signage | The inaccessible entrance does not have signage directing voters to the accessible entrance | 4.1.2(7)(c) | 216.6 | 216.6 Entrances. Where not all entrances comply with 404, entrances complying with 404 shall be identified by the International Symbol of Accessibility complying with 703.7.2.1. Directional signs complying with 703.5 that indicate the location of the nearest entrance complying with 404 shall be provided at entrances that do not comply with 404. |
| Washington Middle School | 1 N 5th Str | Harrison | NJ | School | Entrance | D10 | Entrance | Locked Entrance | The alternative accessible entrance is not kept unlocked during voting hours | 28 CFR §§35.130 28 CFR §§35.133 | 28 CFR §§35.130 28 CFR §§35.133 | 35.130(a) No qualified individual with a disability shall, on the basis of disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of a public entity, or be subjected to discrimination by any public entity. 35.133(a) A public entity shall maintain in operable working condition those features of facilities and equipment that are required to be readily accessible to and usable by persons with disabilities by the Act or this part. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Parking | A1 | Parking | Scoping | Accessible parking is not provided | 4.1.2(5)(b) | 208.2 | 208.2 Minimum Number. Parking spaces complying with 502 shall be provided in accordance with Table 208.2 except as required by 208.2.1, 208.2.2, and 208.2.3. Where more than one parking facility is provided on a site, the number of accessible spaces provided on the site shall be calculated according to the number of spaces required for each parking facility. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C2 | Exterior Route from Parking to Entrance | Changes in Level | The route from accessible parking to the accessible entrance includes abrupt changes in level greater than ¼" | 4.5.2 | 303.2 303.3 | 303.2 Vertical. Changes in level of ¼ inch (6.4 mm) high maximum shall be permitted to be vertical. 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C3 | Exterior Route from Public Sidewalk to Entrance | Openings | The route from the public sidewalk to the accessible entrance includes surface openings greater than ½" wide | 4.5.4 | 302.3 | 302.3 Openings. Openings in floor or ground surfaces shall not allow passage of a sphere more than ½ inch (13 mm) diameter except as allowed in 407.4.3, 409.4.3, 410.4, 810.5.3 and 810.10. Elongated openings shall be placed so that the long dimension is perpendicular to the dominant direction of travel. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C4 | Exterior Route from Public Sidewalk to Entrance | Walking Surface | The surface of the route from the public sidewalk to the accessible entrance is not stable/firm/slip resistant | 4.5.1 | 302.1 | 302.1 General. Floor and ground surfaces shall be stable, firm, and slip resistant and shall comply with 302. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C8 | Exterior Route from Public Sidewalk to Entrance | Curb Ramp Slope | The curb ramp slope exceeds 8.33% from the public sidewalk to the accessible entrance | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C9 | Exterior Route from Parking to Entrance | Running Slope | The route from accessible parking to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C9 | Exterior Route from Public Transportation to Entrance | Running Slope | The route from public transportation to the accessible entrance has slope that exceeds 5% | 4.3.8 | 402.2 | 402.2 Components. Accessible routes shall consist of one or more of the following components: walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | C10 | Exterior Route from Public Sidewalk to Entrance | Cross Slope | The route from the public sidewalk to the accessible entrance has cross slope that exceeds 2.08% | 4.3.9 | 405.3 | 403.3 Slope. The running slope of walking surfaces shall not be steeper than 1:20. The cross slope of walking surfaces shall not be steeper than 1:48. |
| Weehawken Fire House | 1900 Willow Avenue | Weehawken | NJ | Firehouse | Exterior Route to Entrance | G1 | Exterior Route from Public Transportation to Entrance | Ramp Slope | Ramp running slope exceeds 8.33% | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Woodrow Wilson School | 101 W 56th Str | Bayonne | NJ | School | Passenger Drop-Off | C8 | Passenger Drop-Off | Curb Ramp Slope | The curb ramp slope exceeds 8.33% from the passenger drop-off area to the accessible entrance | 4.8.2 | 405.2 | 405.2 Slope. Ramp runs shall have a running slope not steeper than 1:12. EXCEPTION: In existing sites, buildings, and facilities, ramps shall be permitted to have running slopes steeper than 1:12 complying with Table 405.2 where such slopes are necessary due to space limitations. |
| Woodrow Wilson School | 101 W 56th Str | Bayonne | NJ | School | Entrance | D9 | Entrance | Directional Signage | The inaccessible entrance does not have signage directing voters to the accessible entrance | 4.1.2(7)(c) | 216.6 | 216.6 Entrances. Where not all entrances comply with 404, entrances complying with 404 shall be identified by the International Symbol of Accessibility complying with 703.7.2.1. Directional signs complying with 703.5 that indicate the location of the nearest entrance complying with 404 shall be provided at entrances that do not comply with 404. |
| Woodrow Wilson School | 101 W 56th Str | Bayonne | NJ | School | Interior Route to Voting Area | E11 | Interior Route to Voting Area | Door Threshold | The door threshold from the entrance into the voting area is between ¼" and ½" high and is not beveled | 4.13.8 4.5.2 | 404.2.5 303.3 | 404.2.5 Thresholds. Thresholds, if provided at doorways, shall be ½ inch (13 mm) high maximum. Raised thresholds and changes in level at doorways shall comply with 302 and 303. EXCEPTION: Existing or altered thresholds ½ inch (19 mm) high maximum that have a beveled edge on each side with a slope not steeper than 1:2 shall not be required to comply with 404.2.5. |
| Woodrow Wilson School | 101 W 56th Str | Bayonne | NJ | School | Exterior Route to Entrance | G9 | Ramp | Ramp Edge Protection | Compliant edge protection is not provided | 4.8.7 | 405.9.2 | 303.3 Beveled. Changes in level between ¼ inch (6.4 mm) high minimum and ½ inch (13 mm) high maximum shall be beveled with a slope not steeper than 1:2. 405.9.2 Curb or Barrier. A curb or barrier shall be provided that prevents the passage of a 4 inch (100 mm) diameter sphere, where any portion of the sphere is within 4 inches (100 mm) of the finish floor or ground surface. |

This checklist is designed to provide guidance for determining whether a polling place has basic accessibility features needed by voters with disabilities. For each question below there are citations to the 2010 ADA Standards for Accessible Design (2010 Standards). Please review the 2010 Standards for all requirements. There are some differences between the 1991 ADA Standards for Accessible Design (1991 Standards) and the 2010 Standards. Elements and spaces in a building constructed or altered before March 15, 2012, that complied with the 1991 Standards may remain in compliance with the 2010 Standards. See 28 C.F.R. §35.150(b)(2) for more information. This checklist will be used by the County for each election to record accessibility status and any remedial measures necessary. In completing the checklist, for each element (regardless of status marked), please provide, at least twice per year (before the primary and general elections, respectively), the following information: (1) measurements of each feature in the survey form (e.g., width of parking space, slope of curb ramp); and (2) photographs of each element of the polling place and of each measurement. For any elements remediable with temporary measures, please provide: (1) the identification of all appropriate remedial measures, including the remedial measures identified in Paragraph 20 of the "Pre-litigation Settlement Agreement Between the United States of America and the Hudson County, New Jersey Board of Election, DJ No. 204-48-331, USAO No. 2020V00122 ("Settlement Agreement"); and (2) measurements (including slope measurements) and photographs of each remedial measure as it will be implemented on Election Day (as defined by the Settlement Agreement). For any temporary ramps to be used as remedial measures, photographs from recent prior elections may be used if the measurements of the ramp in the photograph are identical to the temporary ramp used on Election Day.

Status of Polling Place

☐ All Elements Compliant

☐ Non-Compliant Elements Remediable with Temporary Measures

☐ Non-Compliant Elements Not Remediable with Temporary Measures (Relocate Polling Place)

Summary:

|-----|---|-----|----|-----|-----------------------|
| | Complete a separate Exterior Route form, when applicable, for the routes from 1) parking 2) passenger drop-off areas 3) public sidewalks 4) public transportation stops Exterior route location: _____ | | | | |
| C1 | Is the route at least 36" wide? (§403.5.1) | | | | |
| C2 | Is the route free of abrupt changes in level greater than 1/2", including stairs? (§303) | | | | |
| C3 | Is the route free of surface openings greater than 1/2" such as grates or holes in the pavement? (§302.3) | | | | |
| C4 | Are walking surfaces stable, firm, and slip resistant? (§302.1) | | | | |
| C5 | Is the route free of wall mounted objects that protrude more than 4" into the path of travel and are between 27" and 80" high? (§307.2) | | | | |
| C6 | Is the route free of post mounted objects that protrude more than 12" into the path of travel and are between 27" and 80" high? (§307.3) | | | | |
| C7 | Are objects that hang over the pedestrian route 80" or higher, including the underside of exterior stairs? (§307.4) | | | | |
| C8 | Is the cross slope of the accessible route no greater than 1:48? (§§403.3, 405.3) | | | | |
| C9 | If the route crosses a curb, is there a curb ramp that is at least 36" wide with a slope no more than 1:12? (§§303.4, 405.2, 405.5, 406.1) | | | | |
| C10 | Is the running slope of part of the route greater than 1:20? If yes, go to Section G. (§402.2) | | | | |
| C11 | Is the cross slope of the accessible route no greater than 1:48? (§§403.3, 405.3) | | | | |
