1 **AFFIDAVIT IN SUPPORT OF SEARCH WARRANT APPLICATIONS**

2 I, Kari S. Harrison, being duly sworn under oath, declare and state:

3 **EXPERIENCE AND TRAINING**

4 1. I am an “investigative or law enforcement officer of the United States”
5 within the meaning of 18 U.S.C. §§ 2510(7). As such, I am empowered to conduct
6 investigations of, and to make arrests for offenses enumerated in 18 U.S.C. § 2516.

7 2. I am a Special Agent with the Federal Bureau of Investigation and have
8 been so employed since June of 2006. I am assigned to the San Diego Field Division
9 on the Violent Crime Task Force-Gang Group (VCTF-GG). I have received basic
10 federal law enforcement training, including training at the FBI Academy, as well as
11 other specialized federal law enforcement training. I have received formal training and
12 have experience in narcotics investigations and gang investigations, including street
13 gang investigations. I have participated in multiple separate investigations involving the
14 distribution of controlled substances and firearms. As part of these investigations, I have
15 used various investigative techniques, including physical and stationary surveillance,
16 informants and cooperating sources, court authorized interceptions, pen register/trap
17 and trace devices, telephone toll analysis, undercover operations, physical searches,
18 mail covers, and electronic examinations of evidence. I have monitored numerous calls
19 and meetings with persons under investigation, including wiretap communications of
20 drug traffickers, gang members, and associates. I have worked alongside and consulted
21 with many law enforcement officials and other professionals experienced in drug and
22 gang investigations.

23 3. Based on my training and experience, I am familiar with how drug
24 traffickers and gang members communicate and operate. For example, I am aware that
25 drug traffickers and gang members discuss and text criminal matters over the telephone
26 and often use coded or vague language. I am aware of how drug traffickers and gang
27 members use their phones to organize and operate their illegal activities. I am familiar
28 with the typical make up and operation of gangs and drug trafficking organizations

1 including the distribution, storage, and transportation of drugs, the collection of money
2 which represents the proceeds of drug trafficking and other criminal activity, and money
3 laundering.

4 4. I have also investigated illegal gambling dens in San Diego. I have become
5 familiar with how illegal gambling dens are operated and utilize the sales and usage of
6 controlled substances, primarily methamphetamine, in order to draw and maintain a
7 customer base. I have also become familiar with the hierarchy of employees, how
8 employees communicate through social media and phones, security measures such as
9 surveillance, the presence of weapons including firearms, and crimes being committed
10 inside these dens such as narcotic sales, robbery, extortion, identity theft, and fencing
11 stolen property. I have participated in over five search warrants served at illegal
12 gambling dens and interviewed patrons and suspects from these locations. Further, I
13 have participated in multiple investigations involving premises maintained for the
14 purpose of distributing drugs. I have overseen numerous undercover and source
15 operations inside gambling dens and reviewed hours of consensually recorded video
16 from these operations. As part of these investigations, I have used various investigative
17 techniques including surveillance, telephone toll analysis, social media analysis and
18 electronic examinations of evidence.

19 5. The following is based my own investigation, oral and written reports by
20 other law enforcement officers, physical surveillance, interviews, database and public
21 records checks, searches, telephone toll analysis, and other investigation. Since this
22 affidavit is for a limited purpose, I have not included every fact I know about this
23 investigation. I set forth only facts necessary to establish probable cause for the
24 requested warrants. Conversations and discussions below are set forth in substance
25 unless noted otherwise.

26 **REQUESTED SEARCH WARRANTS**

27 6. I submit that the facts contained herein demonstrate probable cause to
28 believe that evidence of a crime; contraband, fruits of a crime, or other items illegally

1 possessed; or property designed for use, intended for use, or used in committing a crime,
2 specifically, violations of Title 21, United States Code, Sections 841(a)(1) and 846
3 (Conspiracy to Distribute Controlled Substances); Title 21, United States Code,
4 Sections 841(a)(1) (Possession of Controlled Substances with Intent to Distribute); Title

9 at the locations to be searched (including the structures, all attached and unattached
10 structures, rooms, attics, basements, garages, and parking spaces (including vehicles
11 and trailers parked therein) assigned to or part of the locations to be searched; storage

9 FACTS ESTABLISHING PROBABLE CAUSE

10 A. Background on the Investigation and Gambling Den Operation

11 7. In 2013, San Diego Police Department (SDPD) Street Gang Unit
12 Detectives observed a steady increase in the prevalence of illegal gambling dens.
13 Investigators learned that Asian gang members and associates were often involved in
14 operating these illegal gambling dens and that methamphetamine was being used and
15 sold at these illegal gambling dens. These locations were known as a "trap" or "trap
16 houses." The illegal gambling dens were often located inside houses, apartments, and
17 outbuildings in residential neighborhoods predominantly in City Heights, in the East
18 San Diego area. It is common for gambling den owners to pay rent in cash to the owners
19 of these properties and, in some cases, a percentage of the profits to cast a blind eye to
20 all the foot traffic.

21 8. In 2015, these locations began to draw more attention because of the
22 frequency of violent crimes occurring in and around them such as robberies, shootings,
23 stabbings, and assaults. Investigators learned that the patrons were often gang members,
24 career criminals, habitual drug users, and fugitives. Investigators believe that the
25 criminal activity in and around these locations is due to these patrons.

26 9. Investigators are aware of twenty-three active illegal gambling dens
27 operating in San Diego County. The illegal gambling dens are equipped with electronic
28 gambling machines which are programmed with several games of chance such as poker,

1 blackjack, keno, jacks or better, and slot games. Most locations of these establishments
2 are open 24 hours a day, seven days a week, with some shutting down in the early
3 morning hours and starting up again in the afternoons. Investigators are aware that most
4 of these locations are outfitted with exterior and interior video surveillance cameras,
5 which are often monitored remotely by the establishment owners and managers. Those
6 locations equipped with surveillance equipment often contain monitors showing live
7 feed of the video surveillance.

8 10. Investigators learned that the owners will often not enter their own
9 establishments but instead rely on trusted associates to open, operate and maintain the
10 illegal gambling dens to reduce the likelihood that they will be identified by law
11 enforcement. Investigators are also aware that the owners often rely on seemingly
12 unrelated individuals to rent and obtain utilities for these establishments to further avoid
13 detection by law enforcement. The illegal gambling establishments typically have a
14 hierarchy of employees. The employees often include: doorman, banker, and money
15 courier.

16 11. The doorman is generally an individual from the neighborhood who can
17 recognize and screen patrons. Often, the doorman is a known gang member or a career
18 criminal who has “respect” on the streets to deal with unwanted patrons, attempted
19 robberies, and law enforcement. The doorman will also act as security or as an
20 “enforcer” at the location by dealing with disputes, handling disturbances, monitoring
21 the video surveillance, and reacting to law enforcement presence.

22 12. The “banker” carries the “bank roll,” meaning the money to provide
23 change and winnings to customers. There are generally one or two bankers working
24 inside at any given time. The owners rely on trusted employees to conduct an “audit,”
25 which occurs at least twice in a twenty-four hour period. The audit is conducted by
26 employees using a key to unlock and open gambling machines. The employees will
27 retrieve the money from inside of the machines. It is a common practice for employees
28 to photograph the master audit screen of each machine and share it with

1 owners/managers. The master audit screen shows the cash in, cash out (winnings), and
2 net gain/profit. Employees will clear the screen after each audit. The employees will
3 also document the cash in, cash out, net gain, loans to customers, and other information
4 in paper ledgers.

5 13. Owners may conduct several audits in a twenty-four hour period when the
6 bank roll reaches a specified amount, such as \$2,000. This is done to keep losses down
7 from robbery and law enforcement seizures. In many cases, the employees will have
8 all patrons step outside to conduct an audit to avoid being robbed. In some cases, the
9 employees will conduct an audit with patrons inside but attempt to keep them at a
10 distance. The gambling machines at these locations conservatively take in more than
11 \$3,000 a day.

12 14. Employees generally work a twelve-hour shift and make \$50 - \$250 per
13 shift. At some locations, the owners will give a bonus based upon the amount of profit
14 earned. Patrons tend to tip employees when they win jackpots, which are generally
15 maxed at \$1,000 - \$1,200. The amount of time or tenure of employees varies. The
16 current trend seems to be having one or two tenured employees and several short-term
17 employees.

18 15. Many owners utilize a money courier. The money courier brings additional
19 bank roll to employees, collects money from the audit, and brings profits to the owners.
20 The money courier also acts as a manager who directs employees actions and makes
21 decisions on behalf of the owners at these locations.

22 16. Early investigative efforts revealed that one individual typically owned all
23 of the gambling machines in a given illegal gambling den. Investigators have noted,
24 however, an increase in locations where the gambling machines are owned by multiple
25 individuals. Each of these owners receive a percentage of profit.

26 17. Investigators are aware that these illegal gambling dens are also drug
27 involved premises. The main draw to illegal gambling establishments is
28 methamphetamine use and sales. Investigators are aware that other drugs are also

1 known to be used and sold inside these establishments. It is rare to have a patron who
2 does not use or sell methamphetamine inside these locations. The people selling drugs
3 inside may be employees or independent drug dealers. It is common for employees to
4 hand out small amounts of methamphetamine and “comp” customers who are playing.
5 One owner described how he would give methamphetamine to patrons because it would
6 draw them to the location and kept them playing on gambling machines.

7 18. In 2015, investigators executed numerous search warrants at illegal
8 gambling dens in an effort to eliminate violent crimes associated with these
9 establishments. These establishments are often robbed. The vast majority of these
10 robberies were initially unreported to law enforcement. During search warrant
11 executions at these locations, owners and patrons described drug use and sales inside
12 these locations. However, due to enforcement operations, gambling den owners and
13 employees have placed signs inside that say “no drug sales” or “no drugs.” More recent
14 enforcement operations have revealed that drug sales and drug use has not abated.

15 19. In the past two years, the number of violent crimes and property crimes in
16 and around gambling den/drug premises has become more prevalent. From July 2018
17 through July 2020, there were over four hundred crime cases and over three hundred
18 arrests within 150 feet of 36 known illegal gambling locations. The density of crimes
19 and arrests around these locations corresponds to the highest amount of crime in the
20 East San Diego area. Law enforcement has investigated homicides, shootings,
21 stabbings, felony assaults, robberies, arson, auto thefts, burglaries, identity theft,
22 firearm possession, drug sales/possession, and other crimes in and around these
23 locations.

24 20. Between December 2019 and June 2020, CS1¹ conducted twelve
25 controlled drug buy operations at seven different illegal gambling dens. Additionally,

26 _____
27 28 ¹CS1 has been a cooperating source of information for over two years. CS1 has criminal
convictions for burglary and criminal threats that are more than 10 years old. CS1 was

1 during that same period, CS1 conducted twenty-three controlled gambling operations
2 at 11 different illegal gambling locations. During every controlled operation, CS1
3 observed gambling machines being used by patrons and patrons consuming controlled
4 substances including methamphetamine.

5 B. Current Investigation

6 21. The FBI Violent Crimes Task Force Gang Group is currently investigating
7 Long TRAN aka "Long Tu", Le Thi LE aka "Chi Le", and Dong NGUYEN. TRAN
8 and NGUYEN are known to affiliate with the Vietnamese Boys/V-Boys Street Gang in
9 San Diego. Based on information gathered thus far in the investigation, TRAN, LE and
10 NGUYEN are involved in the operation of several illegal gambling dens where
11 methamphetamine is being used and sold. The illegal gambling consists of electronic
12 gambling machines with games of chance such as poker, keno, blackjack, and slots.

13 22. A criminal record check of TRAN revealed that he has prior felony
14 convictions in California for conspiracy to operate a gambling den and drug premise
15 and two convictions for burglary.

16 23. A criminal record check of LE revealed that she has prior felony
17 convictions in California for possession of a controlled substance for sale and a
18 misdemeanor conviction for conspiracy to operate a gambling den.

19 24. A criminal record check of NGUYEN revealed that he has prior felony
20 convictions in California for first degree burglary and assault with a firearm on a person.

21 25. In December 2018, a CS1 met with TRAN during a supervised and
22 recorded law enforcement operation. TRAN described to CS1 how he operates illegal

23
24
25 working under contract with the San Diego County District Attorney's Office since
26 November 2019 to work off a pending theft case. Investigators have corroborated
27 information provided by CS1 and have utilized CS1 to obtain search warrants, seize
28 methamphetamine and firearms, and locate fugitives. Investigators believe CS1 to be
credible and have not known CS1 to ever be untruthful or provide false information.

1 gambling dens where methamphetamine is used and sold. TRAN described how he had
2 trusted employees who operate these locations by acting as doormen, security, the
3 banker, those who audit the machines, and those who collect the money. TRAN
4 described how he is never there, and his employees take the fall when police shut down
5 a location. TRAN described at least three different locations where he was operating a
6 gambling den where drugs were being used and proposed opening a new location with
7 CS1.

8 26. Between September 2018 and March 2019, SDPD investigators executed
9 state search warrants at five locations in San Diego. While executing these search
10 warrants, investigators recovered electronic gambling machines, cash, ledgers depicting
11 audits and cash flow, methamphetamine, drug paraphernalia, and electronic devices
12 such as cellular phones. Investigators interviewed patrons and suspects detained at each
13 these search warrant locations. Through these interviews, evidence recovered, follow-
14 up search warrants on cellular devices, and other evidence such as signage and ledgers,
15 investigators identified TRAN as the owner at each location. A male named Tung
16 Nguyen, aka “Ang,” was also identified as one of TRAN’s employees who conducts
17 audits, provides bankroll money, and collects money from these locations. During the
18 execution of the search warrants, investigators seized gambling machines and the
19 money inside them. The sum of the money seized for each location exceeded \$2000.
20 Investigators were able to determine that TRAN’s organization involved more than five
21 individuals who conducted, financed, managed, supervised, directed and/or owned all
22
23
24
25
26
27
28

1 or part of the illegal gambling businesses. Images from inside three of the gambling
2 locations that have been investigated but are now closed are included below:

25 27. On February 7, 2019, SDPD officers spoke to Tung Nguyen in the alley
26 behind 3656 ½ 43rd Street. This location was being operated by TRAN, which was a
27 known gambling den where methamphetamine was being used and sold. Nguyen had
28 over \$2,800 cash in his possession and was pending authorization from San Diego

1 County Probation to be arrested for a probation violation. Nguyen agreed to be
 2 transported to a police station to be interviewed. SDPD investigators read Nguyen his
 3 Miranda Rights, which he waived. In the interview that followed, Nguyen admitted to
 4 picking up money for TRAN from at least six different gambling dens where
 5 methamphetamine was being used and sold. Nguyen described and showed how he had
 6 communication with TRAN on Facebook Messenger regarding audits, collecting
 7 money, and photographs of ledger pages.

8 **Target Location 1**

9 28. On June 19, 2020, CS1 met with TRAN during a supervised and recorded
 10 law enforcement operation. TRAN discussed opening a gambling den with CS1. TRAN
 11 described the logistics including but not limited to start-up costs, supplying employees,
 12 conducting audits, collecting money, splitting the profits in half, and paying
 13 “Southsiders” (members of criminal street gangs) money for protection. TRAN
 14 described how he was operating three locations, one of which he referred to as the
 15 “coffee shop” and stated, “It was a good den.” (Investigators believe that TRAN refers
 16 to **Target Location 1** as the “coffee shop” because it is next to Café Le Le which serves
 17 Vietnamese coffee.) CS1 identified the “coffee shop” as **Target Location 1**.

18 29. On September 4, 2020, investigators interviewed Phonetip INTHAVONG,
 19 an Oriental Killer Boys gang member, after he was arrested by SDPD officers while in
 20 possession of one-half ounce of methamphetamine, a scale, cash, and a replica handgun.
 21 INTHAVONG agreed to speak with law enforcement after waiving his Miranda rights.
 22 INTHAVONG stated that he worked at the gambling den next to Café Le Le (**Target**
 23 **Location 1**). INTHAVONG stated he was the doorman and made \$120 or \$150 a shift
 24 and worked a twelve-hour night shift. INTHAVONG stated that a lot of people smoke
 25 methamphetamine in the gambling den and there were over a dozen tabletop machines
 26 at the gambling den. INTHAVONG stated he did not sell drugs inside the gambling
 27 den, nor did he buy the drugs that were found on his person at the gambling den, rather
 28 he obtained the drugs from somewhere else. INTHAVONG noted that the gambling den

1 operators take in a couple thousand dollars a day. Other employees in the gambling den
2 include a banker and someone who cleans. The doorman is expected to do security.
3 INTHAVONG provided he had worked at the gambling den for a week. INTHAVONG
4 also provided he patronizes a gambling den across the street, **Target Location 2**.
5 INTAHVONG identified the owner of **Target Location 2** as Chi Le (Le Thi LE).
6 INTHAVONG provided he was there two weeks prior to September 4, 2020, and people
7 were “smoking dope” (using controlled substances) and gambling inside.

8 30. On August 25, 2020, the Honorable Bernard G. Skomal, United States
9 Magistrate Judge, authorized a search of TRAN’s Facebook account. Investigators
10 reviewed the material provided by Facebook and found photos of the inside of a
11 gambling den. Gambling machines were visible in the photos. These photos appear to
12 be from surveillance cameras located inside **Target Location 1**. Investigators showed
13 CS1 the photos and CS1 confirmed the photos were from the inside of **Target Location**
14 **1**.

15 31. A review of the Facebook records also revealed communications relating
16 to **Target Location 1**:

17 Na Na: “Long me and drowzy are here at euclid and we lost over a rack.”

18 TRAN: “Ok I tell nathan to give you some money back but lan might stop it ok.
19 Tell her that you lost like a thousand. Because there is no percent back at coffee shop
20 and lan is tripping.”

21 Na Na: “Ok thanks.”

22 32. Investigators believe this message exchange indicates that a gambling
23 patron, “NaNa,” communicated to TRAN that she lost over a thousand dollars at the
24 “coffee shop” (**Target Location 1**) and asked for some of the money back. TRAN
25 thereafter agreed to return some of the money. TRAN’s response also indicated that
26 “Lan” (known by investigators to be Thanh Lan NGUYEN) may disagree that TRAN
27 facilitated the return of money to “Nana” and may stop the money return. This message
28

1 exchange demonstrates that TRAN has an ownership interest in **Target Location 1** in
2 partnership with Thanh Lan NGUYEN.

3 33. During the early evening hours of October 6, 2020, agents conducted
4 surveillance at **Target Location 1**. During an approximate one-hour period, twelve
5 individuals were seen entering and twelve individuals were seen leaving the business.
6 Investigators observed, however, that only approximately half of those seen leaving
7 were those previously seen entering the business. There also appeared to be an
8 individual standing at the door providing access into **Target Location 1**. Although
9 signage on **Target Location 1** indicates that it is an alteration business, investigators
10 did not observe any individuals enter or leave with any noticeable bags or items
11 indicating business activity. Rather, the activity observed by investigators was
12 consistent with an active gambling establishment at **Target Location 1**.

13 34. On October 15, 2020, investigators executed a federal search warrant
14 issued by the Honorable Linda Lopez and searched **Target Location 1**. During the
15 search of the location, sixteen video gaming machines, a baggie of narcotics, three
16 methamphetamine pipes, documentation of dominion and control, \$1707.00 in U.S.
17 Currency found concealed under a pipe inside drywall, \$50.00 in quarters in U.S.
18 Currency, documentation of illegal gambling and \$225.00 in U.S. Currency from the
19 video gaming machines, were all found and seized.

20 35. On January 19, 2021, a Confidential Source (CS2)² reported **Target**
21 **Location 1** had reopened sometime after the law enforcement search and was currently

23 ² CS2 was reopened as an FBI confidential human source on January 11, 2021. CS2 had
24 been administratively closed in 2011 after the completion of an investigation. CS2 has
25 a felony conviction for possession of a controlled substance in 2007, a misdemeanor
26 conviction for possession of a controlled substance in 2006, and a conviction for
27 receiving stolen property in 2001. Investigators have corroborated information provided
28 by CS2. Investigators believe CS2 to be credible and have not known CS2 to ever be
untruthful or provide false information.

1 an active gambling den.³ CS2 provided the owner of the gambling machines at **Target**
2 **Location 2** was TRAN and Lan NGUYEN. CS2 noted there were approximately fifteen
3 gambling machines at this location.

4 36. On January 21, 2021, an Undercover Employee (UCE) and CS2 went
5 inside **Target Location 1** during a supervised and recorded law enforcement operation.
6 UCE and CS2 found a closed sign on the door to **Target Location 1**, however when
7 UCE knocked an unknown Vietnamese male answered the door, spoke to CS2, and then
8 allowed UCE and CS2 to enter. UCE and CS2 walked through a narrow opening in the
9 wall and into a game room where the electronic gambling machines were located,
10 another employee of **Target Location 1** stopped UCE and instructed CS2 in
11 Vietnamese to have the UCE lower their facemask, after doing so the UCE was allowed
12 to gamble. There were approximately ten electronic gambling machines at **Target**
13 **Location 1**.

14 37. On February 2, 2021, SDPD conducted a vehicle traffic stop of Tung
15 Thanh NGUYEN and Thi NGUYEN. Tung NGUYEN provided he had picked up Thi
16 NGUYEN from the coffee shop at 4776 El Cajon Blvd (**Target Location 1**). Thi
17 NGUYEN provided she had lost \$200 from gambling at the gambling den.

18 38. On February 9, 2021, SDPD responded to **Target Location 1** after
19 receiving a radio call concerning a vehicle hitting a building. Thanh Lan NGUYEN was
20 standing outside and stated someone had just hit her business and she did not know
21

22 ³ Through the course of the investigation, investigators have learned that all **Target Locations** are
23 open as gambling dens 24 hours a day and seven days a week, except:

24 **Target Location 2**, which opens around 9:00 pm and closes in the morning hours around 7 am or
25 whenever business is slow. Per CS2 the owner stated that law enforcement does not work after 9 pm,
since the last search warrant at her place was executed at 8 pm, which is why she does not open until
approximately 9 pm now.

26 **Target Location 8**, which closes in the late evening/early evening when the owner decides business
27 has slowed down.

28 **Target Location 21**, has intermittent hours based on who has been allowed inside to play.

1 who. With her permission one of the officers looked inside, the officer observed
2 multiple electronic gambling machines inside. The officer also noted NGUYEN had a
3 fanny pack with approximately \$10,000 in US currency in multiple dominations.
4 NGUYEN did not want to file a report.

5 **Target Location 2**

6 39. In addition to the information provided by INTHAVONG, investigators
7 had previously identified Chi LE as operating gambling locations, including **Target**
8 **Location 2**, from information provided by CS1. After learning that **Target Location 2**
9 was an active gambling den where controlled substances, including methamphetamine,
10 were being sold and consumed, investigators initiated several controlled operations at
11 **Target Location 2**.

12 40. On December 30, 2019, CS1 conducted a controlled methamphetamine
13 buy⁴ inside **Target Location 2**. CS1 reported asking the employee of the gambling den,
14 Phoung BUI aka "Phung," an Asian Crip gang member, who was acting as the doorman
15 and watching video surveillance, for two ounces of methamphetamine. BUI responded
16 all he had was a "half," opened a drawer and pulled out approximately 17 grams of
17 methamphetamine and sold it to CS1 for \$90. During this controlled buy, CS1 observed
18 electronic gambling machines being used by patrons.

19 41. On January 7, 2020, CS1 conducted a controlled operation at **Target**
20 **Location 2**. CS1 spoke to LE who CS1 identified as the owner of the gambling den. LE
21 was sitting at a table in the kitchen area playing cards, when CS1 asked about buying

22
23 ⁴ The controlled buys referenced in this affidavit followed standard protocol:
24 investigators met with CS1 at an undisclosed location prior to a controlled drug buy.
25 CS1 and CS1's vehicle were searched with negative results for contraband.
26 Investigators supplied CS1 with buy money and a recording device, followed CS1 to
27 the location, conducted surveillance of the location, and followed CS1 back to a pre-
28 designated location. At the predesignated location, investigators met with CS1 to
recover drugs, recover the recording devices, and debrief CS1.

1 drugs, LE motioned to a methamphetamine pipe on the table. CS1 observed LE count a
2 large stack on cash and hand the cash to a male employee. During this controlled
3 operation, CS1 observed electronic gambling machines being used by patrons.

4 42. On February 11, 2020, CS1 conducted a controlled methamphetamine buy
5 at **Target Location 2**. CS1 observed BUI opening the door to the gambling den and
6 telling a patron they could be cashed out if they won. CS1 also observed BUI give a
7 small amount of methamphetamine to a patron. CS1 purchased approximately 7 grams
8 of methamphetamine from BUI for \$60. CS1 then purchased approximately twelve
9 grams of methamphetamine from Christian Troy CORONADO for \$60. CS1 had BUI
10 weigh the drugs and gave the 7 grams back to BUI. BUI returned CS1' money for the
11 drugs. During this controlled buy, CS1 observed electronic gambling machines being
12 used by patrons.

13 43. During each controlled drug buy operation, several individuals were
14 captured on video and observed by CS1 inside this location smoking methamphetamine
15 and in possession of apparent methamphetamine. LE was identified as the
16 owner/operator of each location by the employees working there. Each drug purchase
17 occurred inside with LE's employees participating in the drug buy or having knowledge
18 of the drug buy.

19 44. On September 25, 2020, law enforcement officers went to LE's residence
20 at 4264 Euclid Avenue #2 and spoke with LE. LE stated she lived at the location with
21 her daughter. LE admitted to having gambling machines inside the location behind 4258
22 Euclid Avenue and having four video cameras at the location.

23 45. On September 27, 2020, SDPD conducted a traffic stop near the 5000
24 block of El Cajon Boulevard. CORONADO was driving a vehicle without a valid
25 driver's license and stated he was on his way to 4258 Euclid (**Target Location 2**) to
26 pick up a friend. CORONADO also indicated that **Target Location 2** was a known
27 gambling house.

28

1 46. A review of records obtained from San Diego Gas and Electric revealed
2 that “Le Tri LE” is the name on the account for **Target Location 2** as of September 17,
3 2020. These records also indicate that LE’s residential address at 4264 Euclid Avenue
4 #2 is her mailing address for billing purposes. Agents conducted an additional review
5 of SDG&E records on January 25, 2021 and verified there were no changes from the
6 prior check related to this address.

7 47. On the evening of October 6, 2020, agents conducted surveillance at
8 **Target Location 2**, surveillance was limited due to the access to the location being off
9 an alley and little to no parking with a line of sight to **Target Location 2**. Attempts
10 were made to conduct a drive-by of the location to observe activity, but numerous
11 individuals were standing in the alley watching vehicles closely. Surveillance was
12 unable to determine the volume of activity around **Target Location 2**.

13 48. On October 15, 2020, investigators executed federal search warrants issued
14 by the Honorable Bernard G. Skomal and searched **Target Location 2**. During the
15 search of the residence, eight video gaming machines, five cell phones, gaming logs,
16 keys, a DVR which was connected to the residence’s security system, narcotic
17 paraphernalia, documentation of illegal gambling and \$695 in U.S. Currency from the
18 video gaming machines, were found and seized.

19 49. On October 15, 2020, Le LE, aka “Chi Le,” was interviewed by law
20 enforcement and she provided she was not surprised that law enforcement were at
21 **Target Location 2** searching. LE stated she had owned gambling machines at **Target**
22 **Location 2** for two years, she makes \$300 to \$400 a day, law enforcement will find
23 \$7000 - \$8000 at the search of her residence, and she does not claim the money on her
24 taxes. LE told law enforcement officers she was no longer going to operate a gambling
25 den after this.

26 50. On October 15, 2020, investigators executed a federal search warrant
27 issued by the Honorable Bernard G. Skomal and searched 4264 Euclid Avenue #2 San
28 Diego, CA 92115. The residence was identified by LE as her residence. During the

1 search of this residence, \$13,930 in U.S. currency, video gaming machine equipment
 2 parts, a laptop computer, documentation of illegal gambling, bank statements and
 3 credit/debit cards, were found and seized.

4 51. An additional federal search warrant was obtained to review the video on
 5 the DVR hard-drive seized on October 15, 2020 from **Target Location 2**. The review
 6 found there were four camera views, two interior and two exterior, and the extracted
 7 video files were from the date range of October 10, 2020 to October 15, 2020. Review
 8 on interior camera views noted numerous patrons gambling at the electronic gambling
 9 machines, identified individuals as employees, and observed patrons and employees
 10 smoking methamphetamine. Exterior video shows employees using a key to lock and
 11 unlock gate and shows an employee getting into a vehicle registered to Thanh Lan Thi
 12 NGUYEN, one of the owners at **Target Location 1**. Photographs from the inside of
 13 **Target Location 2** from October 2020 are included below:

21 52. On January 19, 2021, CS2 reported **Target Location 2** had reopened
 22 sometime after the law enforcement search and was currently an active gambling den.
 23 CS2 provided the owner of the gambling machines at **Target Location 2** was Chi LE.
 24 CS2 noted there were approximately nine gambling machines at this location.

25 53. On March 10, 2021, CS2 went inside **Target Location 2** during a
 26 supervised and recorded law enforcement operation. CS2 observed approximately nine
 27 electronic gambling machines and approximately six patrons gambling on the
 28

1 machines. CS2 gambled \$40 on one of the gambling machines and lost. CS2 was given
2 \$20 by another patron and played and won \$100. CS2 requested to be cashed out and
3 gave \$50 to the patron who supplied the \$20 per the understood rules of the room and
4 the other \$50 was given to law enforcement and placed into evidence as proceeds from
5 illegal gambling. CS2 observed methamphetamine pipes and overheard conversation
6 about packing bowls. CS2 was inside **Target Location 2** for approximately twenty
7 minutes.

8 **Target Location 3**

9 54. In December 2019, CS1 identified **Target Location 3** as an active
10 gambling drug den. On January 7, 2020, CS1 conducted a controlled buy of
11 methamphetamine inside **Target Location 3**. CS1 entered the location and spoke to an
12 employee, Dennis DIBLASI, aka “Drago,” and inquired about purchasing two ounces
13 of methamphetamine. DIBLASI provided a phone number for Tam ONG, aka
14 “Fireball.” CS1 called ONG on a cellular phone and negotiated a deal to purchase two
15 ounces of methamphetamine for \$250. ONG arrived several minutes later and sold
16 approximately two ounces of methamphetamine to CS1 for \$250 inside **Target**
17 **Location 3**.

18 55. On January 24, 2020, CS1 conducted a controlled buy of
19 methamphetamine inside **Target Location 3**. CS1 spoke to Karen PORTER, aka “KK,”
20 and Jessica CASTILLO, aka “Green-Eyes,” inside the location while gambling on
21 electronic gambling machines. CS1 negotiated a deal to purchase approximately one
22 ounce of methamphetamine from PORTER and CASTILLO for \$120. PORTER and
23 CASTILLO left the location for approximately one hour and returned. PORTER sold
24 approximately one ounce of methamphetamine to CS1 inside **Target Location 3**. The
25 drug sale occurred in front of an employee, Wayne CLAYTON, aka “G-Wayne.”

26 56. On June 19, 2020, CS1 met with TRAN during a supervised and recorded
27 law enforcement operation. TRAN discussed opening a gambling den with CS1. TRAN
28 described the logistics including but not limited to start-up costs, supplying employees,

1 conducting audits, collecting money, splitting the profits in half, and paying
 2 “Southsiders” (members of criminal street gangs) money for protection. TRAN
 3 described how he was operating three locations, one of which he referred to as
 4 “Oakcrest” (**Target Location 3**). TRAN described how an employee named “G-
 5 Wayne” operated the location for him by conducting audits and having strict rules.
 6 Investigators and CS1 identified “G-Wayne” to be Wayne CLAYTON.

7 57. On August 25, 2020, the Honorable Bernard G. Skomal, United States
 8 Magistrate Judge, authorized a search of TRAN’s Facebook account. A review of the
 9 Facebook records revealed communications relating to **Target Location 3**. Here is an
 10 example of one such message string:

11 TRAN: “Go to oakcrest game room.”

12 TRAN: “Just go there get it and leave.”

13 Justin Abdon: “Why do i have to leave.”

14 TRAN: “Because I can't have anyone with warrant there bro.”

15 Justin Abdon: “Can I go bye oak and picc up some money please.”

16 Justin Abdon: “I need a job.”

17 TRAN: “Bro I want to help you but I can't put you in the game room.”

18 58. Investigators believe this message exchange indicates that a gambling
 19 patron, Justin ABDON, was asking for money and to be employed by TRAN at **Target**
 20 **Location 3**. The messages indicates TRAN directed ABDON to **Target Location 3**.
 21 TRAN indicated his ownership of **Target Location 3** by being in position to offer
 22 ABDON money, deny him employment, and telling ABDON to leave because he had
 23 a warrant.

24 59. During the late morning and early afternoon hours of August 26, 2020,
 25 agents conducted surveillance at **Target Location 3**. During an approximate two-hour
 26 period, eleven individuals were seen entering and twelve individuals were seen leaving
 27 the residence. Investigators observed that only approximately half of those seen leaving
 28 were those previously seen entering the residence. The activity observed by

1 investigators was consistent with an active gambling drug premises establishment at
2 **Target Location 3.**

3 60. On September 10, 2020, investigators executed a federal search warrant
4 issued by the Honorable Barbara L. Major and searched **Target Location 3**. During the

7 dominion and control, \$1,179 in U.S. currency found up inside a crawl space,

10 individuals were called out of **Target Location 3**.

11 61. One of the individuals called out of **Target Location 3** was Derris Braison,
12 who indicated to law enforcement that **Target Location 3** had been open for over five
13 months and was owned by TRAN. Braison also stated, "Everyone inside does dope."

19 lost. CS2 observed an unknown male smoking a methamphetamine pipe inside. CS2
20 identified Wayne CLAYTON as one of the employees working inside **Target Location**
21 **3**. CLAYTON has been identified as a gambling den employee in prior law enforcement
22 operations.

23 **Target Location 4**

24 65. On January 5, 2021, agents conducted surveillance at **Target Location 4**.
25 Surveillance was limited due to the access to the location being off an alley and little to
26 no parking with a line of sight to **Target Location 4**. During an approximate one-and a
27 half hour period during the late afternoon, seven individuals were seen entering and

21 methamphetamine pipe. Review of video noted Kiara EASLY and Phoungene
22 INTHICHACK, aka "Nana," were present in **Target Location 4**. EASLY had
23 previously been observed on multiple occasions working as an employee in gambling
24 dens and on January 23, 2021 had an outstanding state felony warrant. INTHICHACK
25 sold methamphetamine to CS1 in a controlled buy on February 19, 2020 in a gambling
26 den located at 3654 Roselawn Avenue, San Diego, CA. The Roselawn gambling den
27 has since closed.

 15 limited parking. Investigators conducted a drive-by of the location and observed a
 16 surveillance camera on the front of the residence, during a subsequent walk-by
 17 investigators noted a second camera. During several hours of surveillance starting in

6 during the early afternoon. Agents were able to observe a surveillance camera directly
7 above the door to **Target Location 5**. During an approximately one hour and forty
8 minute period, agents observed seven individuals arrive or leave **Target Location 5**,
9 some in vehicles and some on foot. Surveillance was discontinued when individuals

26 paraphernalia for packaging, weighing, cutting, testing, distributing and manufacturing
27 controlled substances. Individuals who maintain a drug involved premises will often
28 maintain these items at the drug involved premises.

1 b. Individuals involved in drug trafficking and illegal gambling
2 operations often maintain records of their narcotics and gambling transactions and other
3 records of evidentiary value for months or years at a time. It is common, for example,
4 for drug traffickers and illegal gambling operators to keep pay/owe sheets or other
5 papers of drug sold and monies owed. Such pay/owe sheets or papers are used as a
6 basis for accounting and for settling existing debts. Such records are often maintained
7 for a substantial period of time even after the debts are collected. I have found in my
8 training and experience that such records are invaluable to drug traffickers and illegal
9 gambling operators and that such records are rarely discarded. Finally, it has also been
10 my experience that such records and pay/owe sheets also frequently include the names,
11 identities and telephone numbers of suppliers, customers and co-conspirators.

12 c. Individuals involved in drug trafficking must often rely on others to
13 obtain their drugs and to help them market the drugs. Frequently, traffickers maintain
14 evidence of the identities of these co-conspirators.

15 d. Individuals involved in drug trafficking and illegal gambling
16 operations commonly earn income in the form of cash and try to legitimize these profits.
17 In order to do this, traffickers frequently attempt to secrete, transfer and conceal the
18 money by means, including, but not limited to: placing assets in names other than their
19 own to avoid detection while maintaining control; laundering the money through what
20 appears to be legitimate business or businesses; hiding money in their homes, safes and
21 safety deposit boxes; or using the money to buy assets which are difficult to trace.
22 Records of these and other types of transactions are often found at the residences of
23 individuals involved in drug trafficking and illegal gambling, and inside the location
24 where illegal gambling takes place and inside the premises where drug trafficking takes
25 place.

26 e. Individuals involved in drug trafficking and illegal gambling
27 operations often keep and maintain large amounts of United States currency at their
28 residences, inside the location where illegal gambling takes place, and inside the

1 premises where drug trafficking takes place. Such funds are often used for everyday
2 expenditures and to maintain and finance their ongoing business operations.
3 Additionally, individuals involved in drug trafficking and illegal gambling operations
4 often amass and maintain assets at their residence, inside the location where illegal
5 gambling takes place, and inside the premises where drug trafficking takes place, which
6 were generated by their illegal activities, or purchased with the cash earned from such
7 illegal activities.

8 f. Individuals involved in drug trafficking and illegal gambling
9 establishments often maintain weapons, firearms and ammunition on their person or in
10 their residence and/or vehicles. Such weapons and firearms are used, and can be used,
11 as an instrumentality of the crime of possession and distribution of drugs and firearms.
12 Furthermore, I am aware of instances in which these individuals have maintained such
13 items in their residences, in the illegal gambling establishments, and in vehicles in order
14 to protect themselves and guard their drugs, firearms and profits, as well as for
15 enforcement purposes during their drug and firearms dealings.

16 g. Premises used by individuals involved in drug trafficking and illegal
17 gambling usually contain articles of personal property evidencing the identity of
18 person(s) occupying, possessing, residing in, owning, frequenting or controlling the
19 premises.

20 h. Individuals involved in maintaining a drug involved premises, illicit
21 drug trafficking, and illegal gambling maintain records, including electronic files and
22 messages related to their illicit business on smart phones, computers, and computer
23 servers hosting internet applications such as electronic mail (email) and personal social
24 networking web pages. These individuals commonly use cellphones, blackberries,
25 PDAs, other personal handheld electronic devices, and laptop and desktop computers
26 to communicate with, among others, their customers, their suppliers, and other criminal
27 associates and to store phone numbers, text messages, emails, photographs, physical
28 and email addresses, and other information that constitutes evidence of their drug

1 trafficking activities and illegal gambling activities. Drug traffickers also commonly
2 store records of the business of distributing and selling drugs, on computers and
3 computer discs, diskettes, cassettes, tapes, and other forms of digital media. Drug
4 traffickers commonly maintain these items on their person and/or in their residences
5 and vehicles.

6 i. Individuals involved in drug trafficking often utilize radio scanners,
7 police radios and other electronic equipment in order to conduct counter surveillance
8 upon law enforcement authorities, and usually maintain these items on their person
9 and/or in their residences and vehicles.

10 j. Individuals involved in maintaining a drug involved premises, illicit
11 drug trafficking, and illegal gambling maintain documents and files containing names
12 of associates and/or coconspirators. These individuals also often maintain photographs,
13 and/or audio and video recordings of their associates or real and personal property
14 which were acquired with drug and/or gambling proceeds or property utilized to
15 facilitate drug trafficking and/or gambling activities. Such items are typically
16 maintained at the premises where drug trafficking and illegal gambling take place.

17 k. Illegal gambling establishments will often contain electronic
18 gambling machines. The data stored in electronic gambling machines includes daily
19 audit screens, which show the amount of money the machine has taken in and paid out
20 in winnings. This also includes master audit screens to show the amount of money the
21 machines have taken in and paid out for the life of the machine, including breakdowns
22 based on weekly, monthly, and yearly earnings/losses. This data includes identification
23 information on the manufacturer and model of the machines, dates and times the
24 machine has been operated, and other electronic spreadsheets.

25 ELECTRONIC GAMBLING MACHINE SEARCH METHODOLOGY

26 132. Based on my training and experience I know that electronic gambling
27 machines are basically small computers with electronic hard drives, monitors and
28 computer boards that store the information. At a minimum each machine contains data

1 on how much money had been played and how much money has been payed out during
2 the lifetime of the machine as well as the amounts since the last audit/reset. Often times,
3 these machines are put together with various parts from other machines. I know the
4 aforementioned data can be accessed and observed on the main screen of the gambling
5 machine.

6 133. Following the issuance of this warrant, agents will forensically examine
7 the subject devices, download, view and photograph the data stored on each gambling
8 machine.

9 **PRIOR ATTEMPTS TO OBTAIN DATA**

10 134. The United States has not attempted to obtain this data by other means.

11 **REQUEST FOR NIGHT SERVICE**

12 135. Pursuant to Federal Rule of Criminal Procedure 41(e)(2)(A)(ii) and Title
13 21, United States Code, Section 879, I request authority to execute the search warrants
14 at any time of the day or night. Good cause exists for night service. As detailed above,
15 there is probable cause to believe that the individuals present at the search warrant
16 locations will be involved in the use of controlled substances, the distribution of
17 controlled substances, and maintenance of these locations as drug involved premises.
18 This affidavit supports a determination that evidence of violations of Title 21, United
19 States Code, Section 856, maintaining a drug involved premises will be obtained by
20 service during the late evening, early morning hours. Investigators know that patrons
21 use methamphetamine and other controlled substances while present at these locations
22 and that individuals distribute methamphetamine at these locations during these hours.
23 Evidence that these search locations are maintained as drug involved premises,
24 therefore, will be best obtained while the search locations are operated for the purpose
25 of being a drug involved premises.

26

27

28

1 136. Investigators know that at the gambling dens occupying commercial
2 business spaces are near other legitimate business that are not open during night service
3 hours. Night service at these locations will best reduce the likelihood of danger to
4 legitimate patrons at these legitimate businesses, will reduce the impact to the lawful
5 operation of the legitimate businesses and decrease traffic congestion associated with
6 service during the day. Night service at these locations is the best method to avoid undue
7 economic burden on the nearby legitimate businesses. Further, these locations are most
8 active during the hours requested and serving arrest warrants at these locations while
9 they are most active will facilitate the execution of arrest warrants in conjunction with
10 the search warrant and thereby avoid the execution of follow-on arrest warrants at
11 individual residences, the destruction of evidence, and individuals fleeing. Investigators
12 are aware that many of the individuals who frequent illegal gambling dens have prior
13 convictions for violent crimes. Based on my training and experience and in consultation
14 with others in planning for the execution of these warrants, I believe executing these
15 arrest warrants at these locations at night will reduce the risks associated with making
16 the arrests.

1 137. Investigators also know that the gambling establishments located inside
2 residences are in residences that are fully consumed by the gambling establishment.
3 That is, any residents living within the establishment are fully aware it is operated as a
4 gambling establishment and almost always participates in the operation and
5 maintenance of the gambling establishment. During the execution of numerous previous
6 warrants at illegal gambling establishments nearly every room, save for the kitchen area,
7 bathrooms, and one bedroom, were filled with gambling machines. Further, evidence
8 of drug trafficking was often found inside the bathrooms, kitchen and the bedroom
9 occupied by a resident. The bedroom occupied by a resident also nearly always
10 contained evidence related to gambling, to include a safe where gambling and drug
11 proceeds were kept, firearms, gambling ledgers, and keys to open the gambling
12 machines. In short, the occupants were fully involved in the operation of the illegal
13 gambling machines and drug distribution. The effect of night service, therefore, will not
14 likely wake any resident present in the gambling establishment. Given the amount of
15 activity, including numerous individuals who are gambling, using drugs, providing
16 access to the gambling establishment as a doorman, and monitoring video surveillance,
17 there is little likelihood that investigators will encounter a legitimate resident woken
18 from sleep who may believe an intruder is breaking into their residence. In fact, quite
19 the opposite is true. It is more likely that a resident within an illegal gambling
20 establishment would be woken during a daytime service. Officer safety and public
21 safety concerns weigh in favor of night service.

1 138. As discussed above, surveillance, undercover operations, source
2 information, and observations from uniformed officers working around the Target
3 Locations has found that gambling dens are most active in the late evening hours. Search
4 warrants will be executed in conjunction with arrest warrants and the subjects are known
5 to frequent these locations in the late evening hours, otherwise many subjects are
6 transient and will be difficult to locate. Additionally, as a large number of warrants will
7 be executed simultaneously in a small geographical area, there will be less pedestrian
8 and vehicle traffic in the late evening. Also, the majority of these locations are near
9 schools, churches, and/or recreation centers which have minimal use in the late evening
10 compared to the morning hours and night service will allow for greater

11 CONCLUSION

12 139. Based upon my experience and training, consultation with other law
13 enforcement officers experienced in drug and financial investigations, and all the facts
14 and opinions set forth in this affidavit, I believe that the items set forth in Attachment
15 B (incorporated herein by reference), which evidence violations of Title 21, United
16 States Code, Sections 841(a)(1) and 846 (Conspiracy to Distribute Controlled
17 Substances); Title 21, United States Code, Sections 841(a)(1) (Possession of Controlled
18 Substances with Intent to Distribute); Title 21, United States Code, Section 843(b)
19 (Unlawful Use of a Communication Facility to Facilitate the Distribution of a
20 Controlled Substance); Title 21, United States Code, Section 856, (Maintaining a Drug
21 Involved Premises); and Title 18, United States Code, Section 1955, (Illegal Gambling);
22 as set forth above, will be found at the **Target Locations**.

1 140. Because this is an ongoing investigation and premature disclosure of the
2 investigation could endanger agents and officers, cause the target subjects and others to
3 flee, and cause destruction of evidence, I request that this affidavit, the application for
4 the search warrant, the search warrant, and all other associated court records be sealed
5 until further court order.
