# United Against Hate School Presentation Request Form

---

Thank you for your interest in the U.S. Attorney's Office's [United Against Hate](#) program. This program consists of an interactive presentation by attorneys from the U.S. Attorney's Office and special agents from the FBI. Students will learn how to distinguish a hate crime from civil discrimination or other bias incidents; what hate crimes laws exist and why; and how to report potential hate crimes or discrimination to law enforcement.

Although we can make some modifications to the presentation for different environments, we have found through past experiences that the program works best in the following conditions:

- Provide about 90 minutes (minimum of 60) for the presentation and questions.
- Ideal audience size is ~50-100 students.
- It is helpful but not necessary for students to have some background in U.S. government and/or our legal system. For that reason, the presentation may be best for juniors and seniors; those enrolled in a government course; and/or members of student groups interested in civil rights enforcement. However, all are welcome.

Please answer the questions below to the best of your ability. It's fine if you don't have complete information on sending this request; someone from the USAO-WDTN office will reach out to you to help answer any remaining questions.

What is your name?

What is your contact information?

What is the name of the school for which you are submitting this request?

What is your title/role?

Ideally, when would you like to host a United Against Hate Presentation at your school? Please include as much detail as possible.

Tell us a little about the prospective audience. (How many students do you anticipate? What grade level(s)? What are their areas of interest or familiarity with civil rights enforcement?)

Would your school be able to provide the following: (1) an IT hookup so we can project a PowerPoint presentation; (2) a large classroom, small auditorium, or other space for the presentation; and (3) a 60-minute (minimum) or 90-minute (ideal) timeslot for the presentation?

Is there anything else you would like us to know?
