MONTHLY OPERATING REPORT INSTRUCTIONS
*Effective for all cases filed on or after May 13, 2013***

REPORTING REQUIREMENTS AND ELIGIBILITY FOR MODIFICATION

1. Filing Requirement and Due Date. A debtor in possession or chapter 11 trustee ("Debtor") is required to file a Monthly Operating Report (the "Report"), consisting of various forms and other information requested, with the Clerk, United States Bankruptcy Court. Copies must also be served on the Office of the United States Trustee (UST), each member of an official committee appointed by the UST, and counsel for each official committee. The Report is due within fourteen (14) days after the close of the period covered by the Report ("reporting period"). A Report is due for every calendar month or partial month following commencement of the case until a plan of reorganization is confirmed and a final decree is entered, or the case is dismissed or converted. If the case is commenced within the last seven (7) days of a month, the remainder of that month may be included in the following month's reporting period.

2. Applicability and Reporting Requirements. These reporting requirements are applicable to all Debtors in chapter 11 cases. Depending upon the size of the case and the format of the Debtor's internally generated financial reports, the Debtor may qualify for a modification of some of the requirements. The UST will discuss reporting requirements during the Initial Debtor Interview held in each chapter 11 case and provide educational assistance for individuals responsible for completing the Report.

a. Debtors are required to maintain accurate and contemporaneous financial records during the pendency of their bankruptcy case. As such, if a Debtor's accounting systems are not set-up to accumulate and report financial information, the UST highly recommends that some type of basic reporting system be established so that the Debtor can assess their post-petition progress *and* provide required financial information to the court, UST and other 3rd parties.

3. Eligibility for Modification of Reporting Requirements. A Debtor that wishes to obtain a modification of the reporting requirements must obtain approval from the UST. If the UST declines to approve the form of report proposed by the Debtor, the Debtor may then apply to the Court, on notice to the UST, for authority to submit an alternate form of financial report. Paragraph 4 describes some commonly accepted modifications of reporting requirements.

4. Acceptable Forms of Alternate Reports. The Debtor, upon receiving authority from the UST or the Court, may submit on a monthly basis the Summary of Financial Status (Pages 1 and 2) and *an internally generated report format other than the attached Monthly Operating Report. The alternate report must provide, at a minimum, the information requested in the attached Report. A Report will generally be satisfactory provided it contains the following documents:*

- The Summary of Financial Status (Pages 1-2),
- The data requested in Schedules A through F of the monthly operating report,
- A Profit/(Loss) Statement covering the current month and the case to date (*only applies to accrual basis debtors*),
- A Balance Sheet *with pre and post-petition liabilities and equity segregated,*

- Detailed Listings as required by the Debtor's responses to Questions 1 through 10 on the Summary of Financial Status Page 1,
- Explanations as required by the Debtor's responses to Questions 11 through 13 on the Summary of Financial Status Page 1, and
- Detailed Transaction (check) Registers, Bank Statements and Bank Reconciliations.

GENERAL INSTRUCTIONS

5. Accounting Method. The Debtor should use the accrual basis method of accounting to complete the Report unless the UST or the court approves the use of the cash basis method of accounting.
6. Report Format. The format of the Report is for entities in bankruptcy. The petition date is significant because income and expenses arising principally as a result of the reorganization case will be separately classified and reported, and the liabilities arising before the filing of the case will be classified separately from those liabilities arising after the filing of the case.
7. Signature Requirement. Reports should be typed or printed in ink; alternatively, the Debtor may obtain and use an Excel worksheet file from the UST which will permit entry of data by computer and printing from the computer file. In each case, the Debtor (or in the case of a corporation, partnership or other legal entity, the individual designated by the Court as the Responsible Individual of the Debtor@) or the Trustee must declare that the Report is true and correct, to the best of the signer's knowledge and belief.
8. Additional Sheets. If there are more categories than available lines on a particular attachment, the Debtor may add additional lines and/or sheets as necessary. The Debtor must clearly identify each additional sheet with the relevant attachment.
